**CHIEF INTEREST  
OF SESSION IN  
AUDIT REPORT**

Everything Ready for Full Investigation by Committee

CAN CALL WITNESSES

Twitchell Follows Precedent Set by State in Apportioning Committee

The audit of the state industries by Bishop, Brissman & Co., accountants, still holds the center of the stage in the legislative session and from all indications it will do so up to the hour of adjournment.

The plan of the independents is to have the report as soon as it is delivered to Speaker Twitchell turned over to Chairman Grangaard of the special committee created Wednesday for the express purpose of considering this report.

Given Full Powers.  
The house has empowered this committee to take any steps necessary to insure an accurate and informative report which will give the people of the state a clear and complete statement of the exact condition of the state's industries at the time the report was taken. By creating this committee and giving it full powers, the house has guarded against any delay after the report is received.

The committee can employ accountants, attorneys and any other assistants necessary. In informal discussions the general sentiment has been for the employment of two or three attorneys. Nonpartisan members of the committee have asked that they be permitted to select any attorney to represent them. As to accountants, Speaker Twitchell on the floor of the house declared that besides calling the men who assisted in making the report, he favored procuring other accountants as a check and to make it certain that a fair report was secured and to prevent the circulation of misleading propaganda.

May Call Officials.

The committee is empowered to call in any of the state officials and thus may question any persons connected with the management of the state industries from the governor down. It also may call other persons whose testimony is needed to get a complete report. This will enable them to call in officials of the Consumers Stores company to learn of floor deals with the Drake mill or of any bank which has had dealings with the state bank. In appointing the committee, Speaker Twitchell based the representation of minority and majority factions on the precedent made by Speaker Starr of the last house in selecting the members of the library investigating committee when he appointed two Nonpartisans to one Independent.

Chairman Grangaard is a banker of Rogers. He is an official of the State Bankers association. This is the first year he has served in the house. He has been liberal and progressive in politics.

Nonpartisan Members.

The three Nonpartisan members are: S. W. Johnson of Steele county, one of the Nonpartisan floor leaders; Theodore Hanson of Benson county, who has taken an active part in house debates and comes from Senator Church's county; and F. F. Doyle of Williams-McKenzie. Mr. Doyle is in poor health and has asked to be relieved.

The other members are: John Freeman of Grand Forks, who has been a leader in all discussions on the floor relating to the audit report; Andrew Johnson of Ward, a new member who has been especially active in support of progressive legislation; Adam Nagel, Jr., of Logan, an able representative of the south central portion of the state; D. E. Shipley, state secretary of the Farmers Union, Stark county; and C. L. Ulland, a leading Independent of Traill county.

**REPORT ARRESTS  
AT MOHALL IN  
BANK FAILURE**

Mohall, N. D., Jan. 21.—J. C. Peters, president, F. V. Weibe, vice president, and W. W. Bergman, cashier of the Mohall State bank, which closed several weeks ago, were arrested by Sheriff James McKelvie late yesterday on warrants issued by the state's attorney, Percy S. Crews.

The warrants, sworn out by John Bone, deputy state bank examiner, charge the three bank officials with embezzlement of \$9,000 by Liberty bonds several months ago. The three were held in bonds of \$10,000 each and arrangements made for preliminary hearings late this week.

W. H. McIntosh of the state bank examiner's staff, whose appointment as receiver of the institution was confirmed by Judge Burr in the district court at Rugby late yesterday, has not completed his examination of the affairs of the institution and the extent of the alleged defalcations has not been learned.

It was stated at the office of the state examiner today that no word had been received from Mohall concerning the action of E. Lofthus, examiner, in out of the city.

**GOLDEN VALLEY  
POST HOLDS ITS  
ANNUAL MEETING**

Named for Heroic Red Cross Nurse, Organization Has Steady Growth

Golden Valley, N. D., Jan. 21.—The local post of the American Legion, No. 50, named Sabra R. Hardy, in honor of a Red Cross nurse who had succumbed to disease while in the exercise of her duties, overseas, held a successful meeting for the election of officers.

David Schwartz, who resigned during the past spring upon becoming a candidate for a county office, was re-elected post commander for the third successive time. Norbert J. Joyce of Zap, an energetic worker in all Legion activities, was made vice post commander. J. H. Isenick, the post adjutant, whose organization was again honored to hold the office of post adjutant. The other officers elected were: Richard A. Walker, post historian; Henry Becker, service officer; Mike Engbrocht, sergeant at arms; Steve S. Skalski, chaplain; Rev. L. B. Hardy, father of the girl after whom the post is named, was made honorary post chaplain.

Following the election of officers, the men responded to the mess call at the McLaughlin hotel, where a banquet was enjoyed. Following the banquet, the post commander gave a brief account of the activities of the post since its organization and Rev. L. B. Hardy and Father F. X. Bruneau of Hazen, gave instructive and inspiring talks which were well received by all the Legionnaires.

**117 MILLION  
OF PROPERTY  
IS RETURNED**

Custodian of Alien Property Reports That He Seized Total of 534 Million

Washington, Jan. 21.—About \$117,000,000 worth of property taken over by the alien property custodian during the war has been returned to American-born wives of German, Austrian and other aliens, it was stated today at the custodian's office.

The returns were made under an act of Congress which permitted women, who, before they were married, were subjects of enemy countries and countries since separated from Austria-Hungary to file claims for their property in this country seized by the government.

The total value of enemy property taken over by the war property custodian is placed at \$504,000,000, exclusive of the interned German merchant ships seized in American ports and transferred to the shipping board.

**DETECTED IN  
CRIME STUDENT  
KILLS HIMSELF**

Pittsburgh, Kan., Jan. 21.—Wallace Ringle, a senior in the Pittsburgh high school and business manager of the high school paper, killed himself today by taking poison.

Ringle was arrested yesterday charged with holding up a store clerk Tuesday night and confessed to the charge as well as to several other crimes. He had been released on bond.

**COMMISSIONERS  
ENDORSE STATE  
ROAD MEASURE**

Grand Forks, N. D., Jan. 21.—The County Commissioners' association formally endorsed the North Dakota Good Roads association and the Whitman bond issue bill to perfect a system of highways throughout the state.

Those interested in the good roads project feel elated over the promise of co-operation from the county boards of the state.

**SCHWAB DENIES  
HE GOT FEE  
AS DIRECTOR**

Col. Abodies Charge He Received \$260,000 Branded as Maliciously False

PAID HIS OWN EXPENSES

As Director of Emergency Fleet Was Supposed to Receive

Only Dollar a Year

New York, Jan. 21.—Charles M. Schwab appeared before the Walsh congressional committee and denied testimony given yesterday by Col. E. H. Abadie, former controller of the United States shipping board, to the effect that Mr. Schwab's personal expenses for October, 1918, amounting to \$260,000 were paid by the board.

Mr. Schwab said the "statements were" "absolutely unqualified and maliciously false" and that he personally paid all his own expenses during his term of office as director of the emergency fleet.

Mr. Schwab said that although he was supposed to receive a dollar a year salary he did not even collect that, and for his travels from shipyard to shipyard he asserted he never received any compensation and did not want any.

Mr. Schwab admitted such a voucher as that charged by Col. Abadie may have been paid him but declared it was not for the purpose claimed by Abadie and no part of it was charged to ship construction.

His acceptance of the position as head of the fleet corporation, he said, was only at the urgent request of the chairman of the board and President Wilson.

Schwab insisted that all matters connected with his own shipbuilding companies were handled by other members of the board.

**FALLS TWENTY  
FEET IN WATER  
AT NEW BRIDGE**

Grit and Ability to Swim Save Walter Ellis in Ice Plunge

Grit and ability to swim saved the life of Walter Ellis, workman on the Bismarck-Mandan bridge here. Ellis fell 20 feet into a big caisson and managed to keep his head above water by swimming around in the narrow confines of the concrete prison into which he fell.

There was no rope handy and workmen shoved down long iron rods used in reinforcing concrete work, which aided him to keep his head above water. It was several minutes before a rope was obtained to haul him out of the water, and he was badly chilled when brought up.

Few persons would have shown the nerve that Ellis did, workmen at the bridge declared.

**PRIZES GIVEN  
TO PUPILS FOR  
WHEAT ESSAYS**

\$200 Offered for Best Papers on "How to Grow Spring Wheat"

Two hundred dollars in prizes are offered by the Spring Wheat Crop Improvement association, of Minneapolis, for the best essays in the public schools on "How to grow spring wheat."

The contest, which is open to all pupils in North Dakota, South Dakota and Minnesota, was \$50 for first prize, \$25 for second prize, \$15 for third prize, \$10 for fourth prize and \$20 prizes of \$5 each. In addition to the above prizes the association will present a beautiful flag to the school attended by the pupil writing the best essay from the county.

The contest ends on March 10, when all essays must be in to the Spring Wheat Crop Improvement association, 352 Security building, Minneapolis, Minn.

The announcement of the contest has been sent by the association to every teacher in each county in the three states named, and it is probable that in some communities local prizes will supplement those of the crop improvement association.

**NEW CHAMPION  
JERSEY COW**

Golden Carnation Maid 309855, is the new state champion Jersey cow of North Dakota for her age. In one year's official test, starting same at six years of age, she made 102 1/2 pounds milk, 69 1/2 pounds butter-fat. This record was made with no extra care or feeding than that received by all the other Jerseys on the farm.

Golden Carnation Maid's sire is Carnation's Flying Fox 110621 and her dam is King's Maidena 133687. She is owned by Wm. Page, Hamilton, North Dakota. January 17, 1921.

**CURB MARKET TO BE REFORMED,  
REDEEMED AND ROOFED.**

By E. M. Thillery.

New York, Jan. 21.—The only legalized street riot in the United States is going to be suppressed.

Builders are constructing an imposing home for the Curb Market—the great outdoor riot that for nearly 50 years has been the spectacular scene for rubberneck wagon sightseers.

When you've seen that surging mass of male maniacs, seething and milling in the center of Broad street—a half-block down from Wall street—

Gesticulating—  
Waving arms—  
Finger signaling—  
Yelling—  
Bellowing—  
Screaming—

When you've seen that—you've seen the Curb Market, poor little rich-boy of the world of finance; unrecognized by the staid New York Stock Exchange; medium for the sale of unlisted stocks of value and respectability and for others not only not listed but not particularly respectable.

The Curb Market proposes to reform itself and redeem itself—as well as roof itself.

But Wall street—meaning the world of finance—wonders whether it can be done.

The existing Curb Market will move indoors next spring or early summer. The Curb Market Association's 550 members doubtless will do all that their chairman, E. R. McCormick, says they will do in flowing upon worthless stocks.

But when the Curb Market moves indoors, will another Curb Market spring up on Broad street? A sort of open-air bucket shop where the public may get a little action and a few gesticulatory thrills, if not at

Buyer on curb in Broad street, New York, signalling a stock purchase to clerks perched in windows above street. In background a typical curb market crowd.

**WHEELS OF INDUSTRY BEGIN TO SPIN**

BY ALBERT APPLE.  
"We are near the bottom of the business depression," says A. W. Douglas, vice president of the Simmons Hardware Co.

A speedy revival of business is also predicted by A. C. Sedgwick, chairman of board of directors of the Standard Oil Co. in a speech at a private gathering of manufacturers.

Textile industry revives.

Carolina cotton-spinning mills have started up on an average of nearly full time, including Woodside Mills, the largest cotton mill under one roof. Similar pick-up taking place in New England. Conference of mill owners, at Charlotte, predicts revival of entire cotton spinning industry by April 1.

Northwest Trade Rallies.

With wheat 30 cents above last fall's low price, business in the Northwest has picked up decidedly.

Grain loadings on western roads are heavy, deliveries to Chicago being largest for this time of year since 1917.

The movement is so great that Northern Pacific and Great Northern have issued emergency orders against grain cars leaving their lines.

World's stocks of wheat on hand now 226,000,000 bushels, smallest in 10 years. Compared with 333,000,000 bushels same time a year ago and 453,000,000 bushels in 1915. Supply and demand make the price. Looks better for farmers.

**YOUR INCOME TAX  
When, How, What to Pay**

BY GRAHAM B. NICHOL.

T. S. Bureau of Internal Revenue.

In the income tax return of married couples or widows or widowers, must be included the net income dependent minor children whose earnings are appropriated by the parents.

If, for example, the husband's income was \$1,500, the wife's \$500, and that of two minor sons \$300, a return must be made of the family income of \$2,300.

The fact that in this case the exemptions amount to \$2,100—\$2,400 for a married couple and \$200 for dependent—does not relieve the husband or wife of their obligation to file a return.

Husband and wife may each make separate returns, or the combined net income may be included in a single joint return.

If the combined net income of the husband and wife exceeds \$5,000, however, separate returns should be filed. This for the purpose of computing correctly the surtax, which applies to income in excess of that amount.

ways gilt-edged stock, for its money? Chairman McCormick and the Curb Market Association have been worrying about that very thing.

Anyway, the present Curb Market is putting up a three-story building of classic design in Trinity Place, in the shadow of old Trinity church, a block away from the top of Wall street. It will have a huge board room, lined with marble, with Corinthian pillars, and almost as much grandeur as the "big" exchange.

The indoors curb will continue to deal only in stocks not listed on the stock exchange. But it will try to separate the meretricious stocks from the worthless.

**THIRTY YEARS  
IN PRISON FOR  
CHUMS' MURDER**

Sylvester Snider, Sentenced at Devils Lake, Comes to Penitentiary

Devils Lake, N. D., Jan. 21.—Sylvester Snider will be taken to Bismarck today to start a term of 30 years in the state penitentiary for the murder of two sons, Earl and Arthur Fletcher.

The jury reported yesterday morning, after a long debate, finding Snider guilty of murder in the second degree. The jury reported to Judge Burr, of Jagby, trial judge.

The story of the tragedy, as told at the trial, was that Snider and Fletcher had driven to the Fairview school in Towson county last September. Snider testified that one of the Fletcher brothers intimates that they were going to "kill him" and hit him on the head with a hammer. In the fight which followed Snider was alleged to have shot both brothers and left their bodies in the woods.

Jeniously over a half-breed Indian girl is said to have caused the trouble.

**AIRPLANES CARRY  
NEBRASKA VOTE  
TO WASHINGTON**

Des Moines, Ia., Jan. 21.—The two airplanes carrying Nebraska's two women presidential electors to Washington with the state electoral vote stopped here today for repairs.

**MINOT POLICEMAN  
DIES FROM INJURY**

Minot, Jan. 21.—Lee Fahler, Minot policeman, who was wounded twice yesterday in a revolver duel with Ayden Erickson, of Chisholm, Minn., alleged whiskey runner, died this morning at 11:30 o'clock. A charge of murder will be placed against Erickson, who is recovering from a wound received in the fight, it is said. Erickson's wife of but a few months arrived from Chisholm.

**POSTOFFICE OFFICIAL  
GETS BACK \$75,000  
FROM MAIL BANDITS**

Mount Vernon, Ill., Jan. 21.—Post-office inspectors today raided a local garage and confiscated approximately \$75,000, believed to be part of the \$155,000 cash obtained in the theft of registered mail here last Friday.

Several persons were arrested, suspected of complicity in the robbery, in which about \$27,000 in negotiable securities also was obtained.

**TWO FLEETS COMBINED**

Bahama Canal Zone, Jan. 21.—The Atlantic fleet yesterday passed through the Panama canal and joined the Pacific fleet. The combined fleets will leave Saturday for Callao and Valparaiso.

C. W. Reichert Declares Real Deficit of Equity Packing Plant Over Million

CLAIMS FALSE STATEMENT

Declares Reports Were Padded and That Promotion Expenses Were Excessive

RE-ELECT DIRECTORS.

Fargo, Jan. 21.—The present management of the Equity plant won a clean-cut victory just before adjournment this afternoon when all retiring directors were re-elected and a resolution passed authorizing the issue of \$500,000 certificates of indebtedness to give the concern working capital.

The certificates will be in the nature of promissory notes of the company and will not be backed by other security than the confidence of stockholders. A call for subscriptions was made and in a few moments several thousand dollars had been subscribed and several hundred of the stockholders were signing up for from \$200 to \$500 on certificates of indebtedness this afternoon.

Fargo, Jan. 21.—C. W. Reichert, of Carrington, Nonpartisan member of the North Dakota house, at an Equity Co-operative Packing plant meeting held today in connection with the Tri-State Grain Growers' convention charged that the audit report made yesterday showing a deficit of \$712,215 is between \$250,000 and \$300,000 less than the deficit actually is.

Reichert, who was denied the floor on the claims of a stockholders' committee which is opposed to P. M. Casey, president.

Million Deficit.

"I believe that the report is between \$250,000 and \$300,000 in error and this bears out my charge of what the president told me several weeks ago—that there would be a one million dollar deficit," he said.

"Taking a copy of the audit report he went over the assets as listed and declared that many of the current assets listed, such as certificates of deposit, could not be realized on at once. He declared accounts receivable should not be listed at the total figure and that the financial conditions had made it impossible to realize 100 per cent on notes of farmers as listed; that railroad claims should not be carried at full amount of claims filed.

The opposition led by Reichert circulated thousands of printed statements comparing the 1919 and 1920 statements of the company which stated in part:

Padding Statements.

"Our directors have custody of nearly \$3,000,000 and have admitted that they employ in most responsible places have confessed to padding statements and making false statements; have even paid dividends when losses were accruing. Will anyone doubt the right of stockholders to know more of this condition and especially when false statements, such as the last one now submitted by the Northwest Audit company.

—Showed Profit.

"A year ago the statement showed a profit of \$48,000. This year a loss of \$751,000, a difference of \$800,000 to be accounted for. What was padded and where, that the president and board could be so deceived?

If to this we were to add proper reserves to cover real estate, advertising, inventory adjustments, bad accounts and notes receivable any debts not on the books and a proper reserve for depreciation we see where a loss of more than \$1,000,000 has been sustained.

Big Promotion.

"Is the organization expense 10, 20 or 30 per cent of stock sales?

"We seek a method whereby we can effect a permanent cure of our troubles.

President Casey has proposed that an additional \$250,000 to be used as working capital be obtained and expected to be obtained in part by the more than 1,000 stockholders attending today's session. A meeting of the temporary North Dakota Farm Federation, headed by U. L. Burdick, of Williston, is being held at the agricultural college today to organize the federation on a permanent basis.

The Tri-State grain growers are holding their final sessions today and late this afternoon Charles P. Craig, executive secretary of the Great Lakes-St. Lawrence Tidewater association will tell of the benefits of a lake-to-the-sea waterway to North Dakota farmers.

**CHANCE TO GET  
VICTORY MEDAL**

All ex-service men may get Victory Medals next Monday.

An army field clerk will be in Bismarck on that day and will be at the American Legion hall all day and in the evening for the purpose of issuing the medals, which may be had by any man who served in the army, navy or marines.

The clerk will complete all papers necessary to the issuance of medals and ex-service men who wish to get a medal should show their discharge papers entitling them to medal. Various kinds of medals are given for varying degrees of service.

# HOLD UP MONEY UNTIL TAXES ARE REDUCED

Chief Justice Robinson Advises to Refuse Appropriations Until Budget Is Slashed

## ASSESSMENTS ASSAILED

Fourth Message to Legislature and State Officials by Superintendent Judge

Chief Justice Robinson has delivered another message to the legislature upon the question of taxes. His fourth epistle follows:

"Four open letters have I written to you in the Bismarck Tribune of December 13, 23, January 3, 14. I have tried to show that the most important question of the present session is the reduction of the assessments and tax levies for the years 1919, 1920 and 1921. Because of the poor crops, poor prices and excessive tax levies under the laws of 1919 the conditions of the state are deplorable. Nearly half the people have not been able to pay the taxes of 1919. The lands have been advertised for sale and bid in by the counties for the tax, with penalties, interest and costs, and thus the burdens have been increased. The people cannot pay the taxes of 1920. They have no money and cannot borrow it.

**Banks Suspending.**  
"The banks are suspending and going into liquidation and are not making loans. Unless you do something to prevent it the lands will be advertised for sale and sold for the taxes of 1920, and thus the people will be driven from their homes and out of the state. Yet our governor in self complacency says to pass the appropriations and adjourn. As I think there should be no appropriation until the governor has signed acts to relieve the deplorable conditions. And even then, the appropriations should not exceed those made in years prior to 1919. We must not follow the example of the Egyptian monarch who insisted that the Hebrews should make bricks without straw.

**Nefarious Tax Laws.**  
"The excessive taxation of 1919 and 1920 was the direct result of the assessments made under the supervision of the tax commission, the tax supervisors, the governor and his cabinet. Under the nefarious tax laws of 1919 the assessors and tax supervisors of the several counties marked up the assessments to three times that of any former year. The State Board of Equalization added about forty per cent, making the assessments about five times that of any former year—and up went the tax levies. The Board of Equalization consisted of the governor and his cabinet, Langer, Hagen, Kostitzky and Olson. Kostitzky voted against the increase. Olson sat on the fence. Hagen, he was as innocent as a lamb; Langer and the governor did it all. Now the question is how to undo it. My letter in the Tribune of January 14th gives the draft of a bill to reduce and cancel the land assessments, tax levies, penalties and sales for the year 1919. A similar bill would apply to the assessment and tax levies for the year 1920. The process is simple enough. All you need is to compose your differences, pass the reduction bills and obtain the governor's signature. Then it will be in order to consider and allow such appropriations as are suitable to the state under present conditions.

**Valid Local Assessment.**  
Of course there are other bills of minor importance to repeal or modify. The new-fangled tax statutes of 1919. Under Section 174 of the constitution there can be no tax levies only such as are based on a valid local assessment, but under the laws of 1919 many taxes were levied without any assessment. Boards are authorized to levy and collect taxes and do as they please with the money. The annual pool hall and theatre tax amounts to over \$50,000. It is made a political perquisite of the attorney general. He collects the tax and pays the state treasurer about twenty-five

# THIS WOMAN'S EXPERIENCE

Brings a Ray of Hope to Childless Women

Lowell, Mass.—"I had anemia from the time I was sixteen years old and was very irregular. If I did any house-cleaning or washing I would faint and have to be put to bed, my husband thinking every minute was my last. After reading your text-book for women I took Lydia E. Pinkham's Vegetable Compound and used the 'Sanative Wash, and have never felt better than I have the last two years. I can work, eat, sleep, and feel as strong as can be. Doctors told me I could never have children—I was too weak—but after taking Vegetable Compound it strengthened me so I gave birth to a bright, healthy boy. I was well all the time, did all my work up to the last day, and had a natural birth. Everybody who knew me was surprised, and when they ask me what made me strong I tell them with great pleasure, 'I took Lydia E. Pinkham's Vegetable Compound and never felt better in my life.' Use this text-monial at any time. Mrs. ELIZABETH SMART, 122 W. Sixth St., Lowell, Mass. This experience of Mrs. Smart is surely a strong recommendation for Lydia E. Pinkham's Vegetable Compound. It is only one of a great many similar cases.

## WANT A SKYSCRAPER?

What do you do with your "small change?" The tallest skyscrapers in America's two largest cities, New York and Chicago, went up on nickels and dimes in the hands of men who knew the value of "change." The \$3,000,000 Wrigley building, Chicago's tallest, is nearing completion, a monument to America's appetite for chewing gum. It measures 398 feet from the ground up. New York's giant, the Woolworth building, 793 1-2 feet high, was built with ten-cent store dimes.

per cent of it. The law permits him to use it all—and that seems awfully funny. Surely you should repeal or amend the statute. The better way is to leave each city to manage its own pool halls and theatres.

**Ruinous Tax.**  
Then the workmen's insurance tax. It is levied by a bureau appointed by the governor. The bureau pays an expert \$5,100 for the loan of his rates and makes a levy which is five times the sum necessary. Because of this ruinous tax some employers quit the state. Others put it onto their customers. The Wilton Coal Mining company pays \$20,000 a year and adds to the price of coal \$1.00 a ton. Hotel-keepers add to the cost of their rooms twenty-five or fifty cents a day. Surely you lawmakers should fix that rule. And during the next three years there should be no further insurance levies as the surplus on hand is sufficient to pay all losses.

Then we have the state motor vehicle tax—about a million dollars a year. Part of it goes to the state part to the counties and part to the Highway Commission. The overhead expenses of the Commission far exceed the amount expended on the roads. The tax is no more legal than a similar tax on cows, horses, lands and ordinary farming vehicles.

**Labor Laws.**  
The governor says those laws are good enough. And they may be good to get some votes, but they invite the laborer to play the part of a boy, and not a man; to disregard his contracts, to induce others to do the same, and to vex and harass his employers. Such laws are essentially nefarious and tend to degrade the wage earner and to discourage employment. Out on all such laws!

Yours,  
JAMES E. ROBINSON.

## PACT WITH BRITISH BY AMERICAN SHIP LINE IS CHARGED

Washington, Jan. 20.—Charges that the International Mercantile Marine company, an American shipping company, now controlling the operation of about 40 vessels owned by the shipping board, is bound by an agreement entered into with the British government in 1903 "to pursue no policy injurious to the British mercantile marine or to British trade," were made today by Senator Jones, of Washington, author of the merchant marine act.

Part of the text of the alleged agreement entered into for a period of twenty years were read by Senator Jones in an address before the annual convention of the National Merchant Marine association in which the senator made sweeping charges of attempts by British interested supporters, he said, by certain American interests, to destroy the American merchant marine.

As a result of this agreement, Senator Jones said, the steamship lines owned by the International Mercantile Marine company, as well as the leased shipping board vessels now under its control or "actually operated in the interest of the British government and British trade" and subject to the terms of the contract.

## SHOPLIFTERS CAPTURED; GET JAIL SENTENCE

Two Show Girls Admitted Taking Goods from Local Stores WERE LEAVING TOWN

Two show girls were arrested last night by Chief of Police Martinson on charges of shoplifting. The girls pleaded guilty to a larceny charge before Justice of the Peace Dolan and the stolen goods were recovered. The girls gave their names as May Brown and Martha Stewart. They were both about 21 years old and were brought to town by the manager of a show, and relieved of their jobs, according to the police. One of the girls was preparing to leave the city last night when she was arrested. A hat valued at \$25, stockings and underclothing were recovered from the pair. The articles had been stolen from local merchants. After they pleaded guilty to a petit larceny charge, Judge Dolan sentenced them to serve 30 days in jail. There is said to be considerable shoplifting going on in the city and lines are being drawn tight against shoplifters.

who got that \$10,000.00?

WHAT did the letter say? Who are the winners in the big Eveready Flashlight Contest? One man won \$3,000. A woman won \$1,000. One man and two women won \$500 apiece. \$4,500 divides among the remaining 99 contestants, in units ranging from \$250 down to \$10.

A spirited contest. 309,462 entries. The judges (the editors of "LIFE") in making their decisions, stated that the entries revealed "Daylo's greatest usefulness lies in the broad field of danger in the dark, since no one specific use exceeds in importance all other uses."

Go to the nearest electrical, hardware, auto-supply or drug store that sells Eveready Flashlights and batteries. The complete list of winners and their answers is in the windows of Eveready dealers, on a poster like that shown herewith.

Find out who won. Look for the posters in dealers' windows. Learn the message of the mysterious letter in the famous contest-picture. Take your flashlight along and see if it needs a new battery. ### KINMAN INJURED WHEN CAR SKIDS

H. E. Kinman was badly hurt in an automobile collision at the corner of Third street and Broadway before noon today.

An X-ray examination was being conducted this afternoon at the Bismarck hospital to determine whether an arm had been fractured. He was badly bruised, but there were no serious cuts, it was said following an examination.

Kinman's automobile, which was coming east on Broadway, skidded and crashed into the rear of a truck of H. F. Jager's being driven by Geo. Houghen.

The automobile was badly damaged. The windshield was smashed, a wheel broken and the body of the car damaged.

Kinman was taken to the hospital immediately after the accident in a dazed condition.

### 80 MILLION FOR RIVERS.

Washington, Jan. 20.—Improvement of the Mississippi, Ohio and Missouri rivers to insure year around navigation between Minneapolis and St. Paul and St. Louis and Pittsburgh and Kansas City was urged today before the house rivers and harbors committee by a delegation of shippers and barge line operators from the middle west. The improvement, it is estimated, would cost \$60,000,000.

# WILL ALWAYS PRAISE TANLAC, SHE DECLARES

St. Paul Woman Says Her  
Housework Is Easy Since Mas-  
ter Medicine Built Her Up, So  
Wonderfully.

"Tanlac has certainly been a great blessing to me," said Mrs. May Buel, 701 Holly Ave., St. Paul, Minn. "For about a year I suffered from stomach trouble and got so I couldn't do my housework. I couldn't eat anything much and didn't seem to get a bit of strength from my food. My nerves were shattered. I couldn't sleep and I had terrible nervous headaches and dizzy spells. I lost weight continually, always felt tired and worn out and was getting worse every day in spite of everything I could do."

"I have now taken four bottles of Tanlac and my improvement is simply wonderful. My stomach never troubles me at all and my nerves are so steady I sleep like a child every night. I never have a headache or feel dizzy or worn out. I have gained several pounds in weight and I am doing all my housework with perfect ease."

## 1920 GREATEST CORN YEAR

Washington, Jan. 21.—The year 1920 was the greatest corn year in the history of the country, according to the records of the Department of Agriculture. Besides growing a record crop of 3,232,307,000 bushels, the farmers established a new record for average yield per acre with 39.7 bushels, the second time in history that the country's average yield went past 30 bushels.

The area planted to corn last year was 104,601,700 acres which was smaller than the area planted in eight other years heretofore and 1,400,000 acres smaller than the area which produced the previous record crop of 3,121,746,000 bushels in 1912. Last year's crop was the third to exceed 3,000,000 bushels.

## SIBERIAN EXILE TO SPEAK HERE

"Rev. J. A. Frey of Riga, Latvia, Russia, is in the United States in response to the urgent invitation of the Latvian Baptists of this country, the First Latvian Baptist church of New York taking the initiative in the matter of his coming. No Baptist of Latvia or of Russia is better able to speak of the religious or political conditions in these countries. He is one of the most widely known Protestants in his own country, having achieved distinction as minister, statesman, author, teacher and publisher. He introduced the first lithotype in Russia long before Latvia became a republic."

**To Lecture Here.**  
Rev. Frey will lecture at the Bismarck Baptist church, Jan. 25.

No admission will be charged and the public is cordially invited. A letter received from the Home Mission Society, giving the opinion of Dr. C. A. Brooks, who has just returned from a visit to Europe:

"I am deeply impressed by what is reported in the report of the commission. Few pastors endured such trials as he throughout the terrible years of the war. The story of his two years exile in Siberia, under the czarist regime, of his imprisonment and narrow escape from death under the Bolsheviks, and of his later intervention on behalf of the unhappy people who had been the agents or instruments of his oppression, reveals a man of fine and noble temper, whom all will be glad to welcome in London and in the United States."

**Various Types.**  
"Among the men of various types and races whom Mr. Brooks met in Europe, Mr. Frey stands out, with great distinctness. He is a rare combination of sanity and saintliness, of spiritual poise and power, of humor and wisdom, of knowledge of the world and simple unworldliness. He has a deep insight and a clear comprehension of difficult problems and situations and the gift of stating things cogently and convincingly."

Those who care to know about present conditions in Russia and Europe should hear this man who can speak from what he has himself seen and learned during the Great War and since.

**NELSON AGAIN  
NAMED HEAD OF  
RISK COMPANY**

J. T. Nelson, of Glen Ullin, was re-elected president of the North Dakota Retail Merchants' Fire Insurance company, at a meeting held in Fargo. Mr. Nelson has been president of the company for 12 years. Other officers named were: Thomas Welo, of Yelva, vice president; W. D. Austin, secretary and manager; Miss Nellie Scott, assistant secretary; John Bruggen, W. A. Duganly, N. B. Garman and S. T. Parks, directors.

## LET NATURE PAINT THE FACE

Stuart's Calcium Wafers Clear the Skin of Pimples and Such Blemishes and Your Beauty Is Natural.

Nature's rouge is the clear, red blood which forms that wonderful peach bloom in the cheeks. And you get this by the influence of calcium in the blood. It is a refining influence. Calcium is the principle agency of Stuart's Calcium Wafers and exerts a peculiar stimulus to skin repair. Pimples, blackheads and other such evidence of localized skin sluggishness are replaced with new material and soon the skin renews itself with firmer, healthier tissue. This makes the beautiful complexion so much admired. No use to hide pimples with cold cream and lotions. They come from within and keep coming until such an influence as calcium is employed.

Let nature paint your face through the influence of Stuart's Calcium Wafers which you can obtain in any drug store at 60 cents a box.

# THEO HAYS PLANS DRIVE IN THEATRES

St. Paul, Minn., Jan. 21.—The opportunity to enjoy a good show and at the same time contribute toward the relief of Europe's starving children will be offered to the people of Minnesota and North and South Dakota by the theatrical men of these states. Jan. 25 and 29.

On these days the theatre men will make special efforts to augment the \$35,000,000 fund being asked of the American people by the European Relief council.

Theodore L. Hays, well known theatre man of the Northwest, has been named chairman of the theatre drive by Herbert Hoover, head of the relief council. Mr. Hays' territory covers Minnesota and North and South Dakota.

The co-operation of theatre managers, four-minute-men, newspapers and women's organizations have been enlisted by Mr. Hays in the effort to make the drive the most successful of its kind ever attempted in the Northwest.

All day on January 25 the theatre men will make special efforts to encourage as large an attendance as possible in the effort to increase the relief fund. The Four-Minute-Men and women of the three states will aid the theatre men on this day.

Special children's matinees will be given in every theatre in the three states on January 25. A nominal fee will be asked of the children who attend these matinees.

Every penny of the children's matinee receipts will go to the fund. All theatre employees are donating their services in putting on the matinees besides giving cash toward the fund. The film companies are offering their photoplays free of charge for the matinees.

## WILSON'S FIRST JOB

'Twill Be to Bring His U. S. History Up to Date

Washington, Jan. 21.—America soon will soon know the story of its participation in the World War and peace negotiations from its first authority—Woodrow Wilson.

The president's first work after leaving the White House will be to bring his own history of the United States up to date.

This will include his own eight years in office.

Students of events hope he will reveal and interpret situations preceding America's entry into the war, its part in the conflict and its difficulties at the peace table, which only the president knows all about.

Writing this work is expected to take Wilson a comparatively short time, as his personal history on events are complete and thoroughly systematized.

One reason for his remaining in Washington is that he will be convenient to national records.

## DECREASE IN CRIME

New York Police Commissioner Says Figures Prove It

New York, Jan. 21.—Now comes Police Commissioner Enright with figures to show murders, robberies and burglaries in New York were fewer during 1920 than during 1919.

Also New York's record for 1919 at least—was not as bad as Chicago's, though New York is twice as large.

Enright, whose administration is about to be investigated, has at least one supporter in his assertion that the crime wave is over.

New York is the safest city in the world, says John H. Banton, new chief of staff for District Attorney Swann. "New York is being hurt by the continuous slander on her good name."

# All Mothers Will Find Use For This Laxative

Give Dr. Caldwell's Syrup Pepsin to a constipated child and note its quick recovery.

IN a growing family the subject of thought with the parents is how to keep the children healthy and happy, and what to do when they become ill. Most illnesses of childhood are the symptoms of constipation, such as headaches, coated tongues, flatulence, dizziness, loss of appetite and sleep, biliousness, etc.

You can surely feel safe in doing what tens of thousands of others do with good results, so give, according to the age of the child, a small quantity of Dr. Caldwell's Syrup Pepsin. Eight million bottles were bought last year at drug stores. It is America's favorite family remedy for constipation, indigestion and similar ills, and is especially suitable for children, women and old folks as it is so mild and gentle in action.

There is no secret about Dr. Caldwell's Syrup Pepsin. It is a combination of Egyptian Senna and other simple laxative herbs with pepsin and pleasant tasting aromatics. Druggists have sold it for thirty years, and a sixty-cent bottle will last for months. Experienced mothers are never without it in the house.

## TRY IT FREE

Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address me Dr. W. B. Caldwell, 513 Washington Street, Monicello, Illinois. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

Visitors are being kept away because of fear of holdups and burglaries.

Here's New York's crime record, as Enright figures it:

	1920	1919
Murders—		
Shooting	141	185
Stabbing	26	36
Unclassified	87	88
Total	254	309
Robberies	1,595	1,594
Burglaries	3,040	3,100

Forty per cent of New York's population is foreign-born—Filipino declared to be the reason why New York annually has six times as many murders as London, and four times as many burglaries.

Frank Oliver, chief clerk of the city magistrate's court, gives statistics showing that of 214,000 persons arraigned in a year, 95,000 were native born and 119,000 either foreign born or natives with foreign parents.

## JAPS HOARDS GOLD

Yellow Coin Obtained in Debt Liquidation

New York, Jan. 21.—Japan is bringing export of gold and obtaining all it can by liquidating its debts, according to Alfred Fenton.

Fenton is general manager of the Eastern Commerce Co. and has just returned to the United States after several years in the Orient.

Despite a general depression in business and the closing of factories, Fenton points out the postal savings of the people continue to increase.

Figures of the Federal Reserve Board show that Japan has received \$102,414,000 of the gold leaving this country since the embargo was lifted.

### Would Shut Down Gas Works

"My stomach has been so filled with gas for the last three years that I felt I could pretty nearly supply our town. I also had frequent pains in right side in region of the appendix. Doctors didn't help much. One day my neighbor told me about what Mayr's Wonderful Remedy had done for him and I got a bottle of our druggist. I can say that it will do all and more than you claim for it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

**Vermilya Sisters Entertained**  
Several little affairs are on this week in the high school set, compelling students who plan to leave town with the close of the school semester. Majorie and Mildred Vermilya leave with their parents next week to make their home in San Francisco, and Carlisle Knudtson leaves this evening for St. Paul, his family having gone to St. Paul over a month ago to make their home.

Miss Mabel Nathan and Miss Helen Fogarty entertained at an oyster supper at the home of Miss Helen last evening, honoring the three young people who are leaving. Decorations were in orange and purple, the class colors of the junior class. Covers were laid for Misses Uni and Vera Fraser, Blanche Wimmer, Clara Anderson, Misses Marjorie and Mildred Vermilya, Messrs Charles Moses, Kenneth Morris, Newell Hamilton, Harlan Fogarty and Carlisle Knudtson. Two members of the football team were unable to attend because of the coming game on at Dickinson today.

On Wednesday evening the girls of the junior class entertained Miss Marjorie Vermilya, a junior, at a theatre party.

This evening at the high school building the junior class will give a dancing party, the last of the series to be given before the departure of their classmates. The semester closed at noon today, and school will re-assemble on Monday of next week when promotions will be announced.

### BENEFIT DANCE GREAT SUCCESS

The dancing party given by one group of the Episcopal Ladies Aid in Patterson hall last evening was a success socially and financially. There was an excellent attendance; the music was good, everybody had a good time, and the ladies have a nice fund to turn over for benevolent work.

### MRS. TILLOTSON HOSTESS

Mrs. B. P. Tillotson will be hostess tomorrow afternoon to the Mothers Social club. Miss Bertha Palmer has been invited to discuss pictures, illustrating her talk with copies from the great artists. Mrs. Ray Bergeson will review the Notes Building of America, and Mrs. A. P. Lohr will read a paper on Statues of Famous Women.

### CARD CLUBS ENJOYED.

The coming week will see a number of the enjoyable little afternoons given by the card clubs. Mrs. H. F. Keller will be hostess for the T. R. card club and a new club, the fourth of the pleasant little groups of women who met every two weeks for a social afternoon, will have its third after-noon on Wednesday, Mrs. Bodenstab and Mrs. Crews having entertained the group at the two initial gatherings.

### NORTH DAKOTA MOVIE STAR.

Miss Betty Ross Clarke, a North Dakota girl, is shown in the photograph section of the Chicago Sunday Tribune of January 9, among the prominent screen artists. The Chicago Tribune says:

## DANCING FEATURE OF LISTEN LESTER

Francis X. Donegan and June Roberts in Dancing Stunt

No musical comedy on Broadway achieved the popularity that "Listen Lester" did, and which will be the offering at the Auditorium Saturday, January 22.

Produced under the direction of John Cort, "Listen Lester" was well-received in New York and soon was classified as the smartest dancing comedy of the year. The work of Harry L. Cort, George E. Stoddard and Harold Orlow, it soon brought a goodly account of fame to these three young men from the west. Its plot, smothered in captivating songs and snappy dances, concerns the tribulations of a flirtatious colonel who only eludes one pursuing damsel to fall in to the clutches of a more sophisticated

widow. Pretty girls who crowd the Southern winter resort surround the colonel in Florida; a pet hotel clerk, a weak but willing porter, the Lester who listens much, but not well, furnish the story with laughter and jokes that have become classics. The music is rollicksome, the costumes gorgeous, the whole a production such as Bismarck has not seen for many a day. The cast is headed by the popular comedian Fred Heider—who will be seen in his original role of the "hip" hotel clerk and includes June Roberts, Delano Dell, Earl Higley, Frances X. Donegan, Rene Brown, Betty Kirkbride, Claire Grenville, Dorothy Roberts and The Four Entertainers, and the daintiest dancing chorus ever seen anywhere.

### KINMAN BETTER.

If E. Kinman, who was injured in an automobile accident, was back at his place of business, the O. K. garage, today. An X-ray examination yesterday afternoon disclosed that his arm was not broken. He has some bruises and cuts from flying glass, but says he will be as good as new in a day or two.

### BOHEMIANS' SHOW COMING TO BISMARCK

The Greenwich Village Follies, which comes to Bismarck, January 31, brings the original New York company, according to Richard Maney, advance agent, who arrived in Bismarck to make arrangements for the showing.

"The cast includes Ted Lewis, James Watts, Sylvia Jason, Vera Jordan and Hickey Brothers," said Mr. Maney. "These names are a guarantee of what the show is."

The show, which now is in the Twin Cities, will tour the Pacific coast. The entire lower floor in Bismarck will sell for \$3 a seat. In other cities the admission has been as high as \$1 a seat. Mr. Maney added.

### ATTENTION, ELKS!

## NOT A HOMESPUN NATION NOW.

Between 1850 and 1915 the production of men's clothes in this country increased 900 per cent, in part due to the increase of population. In the same period the production of women's clothes increased 6,500 per cent. Which doesn't prove that women are wearing more clothes than their grandmothers did; nor does it indicate a larger percentage of increase in female population than male.

The figures have to do with the industrial output of clothes. That explains it. Half a century and more ago women wore chiefly garments made at home. Then, too, father had many garments manufactured in the home. Before 1900 dowered women had passed men in consumption of the industrial product and rapidly have they forged ahead.

It is evident that the day of the homespun is far distant, and never can be seen again. It was not an economical day, although the folks of that time liked to think of it so, and some of us do call it that now. Rather was it a wasteful, inefficient time, albeit necessary, for without machinery and without invention there was no other way. Then it took one person many days, from weaving to sewing, what one person with machinery today can do in as many hours.

Early Americans were proud that theirs was a "homespun nation." And some few Americans view with sad faces our long strides away from the day of the homespun, the home-made clothes. They point to our bread as another evidence that we are wedded to spendthrift methods. "In 1850," writes a student of economics, "the industrial production of bread and bakery products were quite insignificant. The thrifty housewife not only made her own clothes but baked her own bread. Since then the industrial production of bread has increased nearly 4,000 per cent."

It is true that in the average American home "bake day" has been wiped off the calendar. But why not, when it has been proven that industrial bakers can do it more efficiently, and at less expense? Oh, yes; they used to figure a cheaper home product by not including mother's time and labor. It was so with home-made clothes; mother's time and work never was reckoned in.

The best way is the efficient way, the least costly way of producing an equally good product. This was, undoubtedly, the home-made way, years ago, before machinery revolutionized things. It is the inefficient and more costly way today.

Home should not be a clothing factory, nor a bakeshop; with mother the working force, any more than it should be a flour mill with father grinding grain. The home should be a home.

## DAVY HASN'T QUIT WORKING.

Davy James, a little old Welshman, who lives at Banian, Pa., has mined coal more than 60 of the 81 years he has been on earth. That is, Davy has spent a goodly part of the years he has been on earth under earth.

Many men begin thinking of retiring long before they reach 81.

Quitting work is a goal all aim at. Yet, few quit when they come to it, and only ill health, loss of strength, or some physical weakness compels the choice of no-work.

Davy isn't the kind to quit until he has to. Therein he is like most other humans. They may change jobs as they get older, and call their new work a "hobby." But it is work, just the same. Davy, however, stuck to the job he started with. He never had a desire to change. Last summer and fall Davy put in his busiest days, getting out more coal per day than he ever had done, and drawing his highest wages. Pretty good for 81 years!

"Why don't I quit?" Davy exclaimed when asked why he didn't discard the pick and shovel and "take things easy."

"I wouldn't know what to do if I didn't work," he went on. "I'm too young to loaf around doing nothing. I'd have to turn to a new job, and I'm too old to do that."

It is no new thing to hear that 81 is too old to start learning new tricks; Davy James, though, released a new idea in "a man at 81 is too young to quit work."

And, folks, wouldn't this be a fine world if everybody could, and would, so live that at 81 he, or she, could think with Davy that a man should be older than 81 before he wishes to kiss work goodbye.

Which doesn't intend to convey the idea that the scheme of things should be so arranged that

every man would have to work after he has reached the mature years of four-score. Rather does it suggest the hope that work would be so pleasing that every mother's son would want to engage in it to the very sunset of life.

Once it was on the program that man worked hard and long hours so that he might accumulate sufficient to "take life easier." The trouble with that was that few men had much life left when the recreation day came. The modern, and better, plan is to combine work with play all through life, so that one will not wish to quit work in old age to play.

## THE NATIONAL BONFIRE.

The housing shortage was further increased during December by burning tens of thousands of dwellings. During the month the usually heavy total of \$41,197,000 fire losses were recorded in the United States and Canada. This brought the year's bonfire up to the enormous total of \$330,853,925. Most of these fires might have been prevented, insurance officials assert. Why weren't they? Carelessness, thoughtlessness, heedlessness! Rather expensive vices, aren't they?

Sugar's so cheap it must be the adulterants that keep candy prices up.

## EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

## OUR "CITIFIED COUNTRY."

The early suspicions of the census bureau are confirmed. More than half—to be exact, 51.4 per cent—of the total population of the continental United States lives in the cities. They have nearly 3,000,000 more people than the rural districts.

New York has of course the largest urban population, five times as large as the number of its country livers; but Massachusetts is the most "citified" of the states. The score in the Bay State is: urban, 3,650,248; rural, 202,108.

Texas and Pennsylvania lead in rural populations, each with more than 3,000,000 country people. Of the great states in the Middle-West, Illinois, thanks to Chicago, has twice as many city dwellers as farm folk; factories have made almost the same condition in Ohio; Indiana is nearly fifty-fifty; Iowa leans to the farm in the ratio of two to one.

The reader who is sad because the town has grown so great should remember that the census was taken a year ago, before the economic condition which for four years made city life attractive to young country people began to change.

A census next July might tell a very different story.—New York Herald.

## TAXING SOUND BANKING.

When the state imposes a tax on sound banks to pay the losses sustained by depositors in banks which are unsound and are forced to close, it is only fair that the state should in return give every possible protection to those bankers who are trying to do business on sound principles.

The state has assessed the banks \$260,000 as this year's tax to pay the losses of depositors in the banks which have closed. That is the maximum tax that may be levied under the law, and it would not be surprising if a similar tax were collected for several years to come before we finally clean up the present financial mess.

The sum of \$260,000 is a stiff tax for the state banks to pay, and in return for it they have a right to look to the state for protection. It is far too easy to engage in the banking business in North Dakota. We have too many small banks and not enough large ones. Many a little country crossroads has two or three banks cutting each other's throats. Other states have found it possible to restrict the number of banks. Minnesota, for example, will not permit a bank to be started until it has been shown that there is a field for it. Until North Dakota restricts the number of banks in some way, the sound banks of the state will doubtless continue to pay the maximum tax for the guaranty of deposits. In other words, the good bankers will be fined to pay the losses incurred by the poor bankers.—Fargo Forum.

## GAS TO FOIL BANK ROBBERS

Contrivance Threatens to Make Trouble for That Particular Class of Society's Enemies.

Bank robbers who make a specialty of attacking vaults with explosives will do well to beware of a contrivance newly patented by Richard C. Roeschel of Harrisburg, Pa. He proposes to provide a chemical defense for banks in the shape of an arrangement of glass tubes forming a sort of poison-gas battery. It may be made part of the gate inside a vault, or may have any other structural relation to the vaults that is deemed desirable. It may even be portable, so as to be placed in position at night, and removable in the daytime.

The tubes are designed to contain benzyl iodide, tear-gas stuff, or any other suitable chemical which, when it expands, is calculated to asphyxiate the robber or, at least, put him to flight. Bulbous expansions of the tubes furnish containers for the deadly material.

The robber has only to start something by setting off a charge of explosives. The concussion breaks the tubes; oil flows the lethal chemical, and the business of burglary interests the nocturnal bandit no more for that occasion.—Pittsburgh Dispatch.

## Beat Them to It.

An Irvington man planted several hills of bantam sweet corn in an isolated part of his garden to grow seed for next year. He remarked to a neighbor woman about the time that "the blackbirds and sparrows had not succeeded in finishing his seed corn this year." The second morning after making this remark he found about forty blackbirds, near sunup, busily devouring his corn. He "shooed" them away and that evening pulled all the ears and put them away for safe keeping. The next morning he looked out to see whether any blackbirds were on hand. Sure enough an immense flock was sitting on the ground at the base of the now barren stalks looking at each other and around. The puzzled look on their "countenances," he says, was uncanny in the extreme.—Indianapolis News.

## Elevated to Bishopric.

Seldom has there been discovered a more clever and effective device for spreading the gospel than that arranged by wise old Bishop Amator of America. He evolved a scheme which promised the linking of the church with the powerful state.

Catching Governor Germanus in church one day, the bishop slipped up behind that official. A pass with one hand and he had slipped off the gubernatorial locks; a pass with the other hand, and a bishop's robe was slipped over the tattered one. Before the governor could say the American equivalent for "Jack Robinson," he was informed that the Bishop Amator had resigned and that he was ordained in his stead.

## French Hostess Houses Closed.

Because of the small number of visitors to the American cemeteries in France during the cold months, the hostess houses maintained by the American Red Cross and the Y. W. C. A. at Bony, Fere-en-Tardenois and Belleau woods, for the comfort of parents and friends who are visiting the graves, are closed this winter. The house near Romagne, at the Argonne, the largest of the American cemeteries, will remain open. If the need is renewed in the spring the houses will open again. Hundreds of American travelers who have visited the graves have been taken care of in these small houses, the only quarters affording meals, restrooms or any traveling comforts near the cemeteries.

## ADVENTURES OF THE TWINS

By Oliver Roberts Barton.

THE LOBSTER.  
Flo! All of a sudden the whale came to a jerky stop at the bottom of the sea.

At the top of the steps leading into the Jinn's palace, stood a lobster, brandishing a large cooking spoon.

"I smell hyacinths," exclaimed Nancy, and even as she spoke the whale disappeared.

"I'll bet he was the Bohadil Jinn himself," cried Nick and sure enough a mocking laugh floated through the water to them.

The children looked around, and there right in front of them was a wonderful sea palace. So many strange creatures were all about them that Nancy felt half afraid.

"Let's go in," she said.

"Have you got the box of charms?" asked Nick?

"Yes," she replied, "but I think I better hide it some place. If this should be Jinn's palace, he might have somebody inside who could get it away from us."

Nick agreed with her and they hid the box under a big cockle shell. Then they went to a gate in the palace wall which they found standing ajar, and slipped inside.

"Clang! The gate closed! The children looked around in alarm.

"What's wrong?" he demanded sharply. "What are you staring at—the checks on my kitchen apron or my goggles?" And he brandished quite a large cooking spoon!

## SOME SMILES

No Wonder.  
"You love long rambles in the country?" asked the impudent girl.  
"Yes, indeed," responded the young man in the great hat with the purple band and buckled shoes. "When I go out in the country all nature seems to smile."  
"Gracious! I don't blame her. It's a wonder she don't laugh outright!"

Sure Proof.  
"Yes, sir, it's pretty hard collecting money just now; I know it."  
"Have you tried and failed?"  
"Oh, no!"

How, then, do you know that money is hard to collect?  
"Because several people have tried to collect some from me."—Tit-Bits.

Just Dropped Off.  
Pedestrian (to motorcyclist, who is looking bewildered at his machine)—Lost anything, sir?  
Motorist—Yes.  
Pedestrian—What is it?  
Motorist—My girl.—London Telegraph.

Safety First.  
Nervous Passenger (in aerial taxi)—W-w-what are you laughing at, driver?  
Driver—I'm just laughing at the superintendent. About this time he'll be searching for me all over the lunatic asylum.—Life.

Quite Different.  
"My wife is making it hot for me because I won't give her the pin money she wants."  
"Well, don't be mean about it. Give her the pin money."  
"But it is money for a diamond pin she wants."

A Necessity in Some Cases.  
"Would you advise a man to become interested in politics?"  
"With all the women taking part in politics," rejoined Senator Sorghum, "I don't see how it would be possible to keep any right-minded man from becoming interested."

DIFFERENT NOW  
Goldbag: I never had much taste for mathematics when I was a boy.  
Giltedge: But you managed to do some great calculating in a business way.  
Goldbag: That's different. It's wonderful what an interest you can give to a row of figures by putting a dollar mark in front of them.

The Soap Box.  
An orator direct mankind  
Along the paths of human hope,  
The box asserts itself, we find,  
As more important than the soap.

Endless Enterprise.  
"I suppose you will be relieved when campaigning is over."  
"Campaigning," rejoined Senator Sorghum, "is never over. As soon as one campaign is finished it is time to start on the next."

An Easy Process.  
"I hear that somebody has invented a process for gathering nuts."  
"That process is as old as the hills. All you have to do is to announce a meeting of some fool and the nuts will gather themselves."

Sufficient.  
Mrs. Wiggs—Cook has only broken one dish today, dear.  
Mr. Wiggs—That's better. How did that happen?  
Mrs. Wiggs—It was the last one.—Pearson's Weekly.

Admiration.  
"You seem very attentive to that soap-box orator."  
"Yes," replied the man who worries about fuel. "He is standing on the makings of a fine bunch of kindling wood."

Better Reputation.  
The Chairman (Mr. Bones the butcher)—Well, now after these few cursory remarks by Mr. Woodhead—Mr. Woodhead (excitedly and emphatically)—It's a lie! I never swore in my life.—Passing Show.

Contrary Treatment.  
"I'd like to make that lecturer or fads out his words."  
"Why so?"  
"Because the audience was drinking them in."

A Personal Bewilderment.  
"Are you sure your auditors understood all of your arguments?"  
"If they did," answered Senator Sorghum, "I wish they'd come around and explain some of 'em to me."

The Shocking Cause.  
"Jim came that electrical insanity to be so exaggerated?"  
"The current rumors, I suppose."

Curious Masterpieces. Literary masterpieces have been written on strange mediums. Smart's poem, "Song to David," was written with a key on the walls of a madhouse. Coleridge once wrote a sonnet on a scrap of seaweed.

## MEMORIAL TO CLARA BARTON

School in Which Great Woman Taught Is to Be Preserved as Educational Landmark.

"A public school is impossible," the good folk of Bordenstown, N. J., told Clara Barton, the greatest woman teacher of her time, and one of the best friends to children in all time. "It has been tried and always it has failed."  
 She had taught at Bordenstown in 1833, and the fame of her conquests of expertly bad boys had spread. Her pupils were her champions, and when ever their enthusiasm could reach some of the general prejudices against public schools were shaken. But Bordenstown was ten miles away.  
 The new teacher took a tumble-down, unoccupied building, with six pupils, but in six weeks the place was too small to hold half of the little Bordenstowners who wanted, at last, to go to school. It had become—though no one knew it then—an educational landmark. The old structure where she moved that thing was life in public schools will be taken care of for the future.  
 Since Clara Barton was the founder of the Red Cross in America, that organization took the responsibility of saving the school when it was in danger of destruction, but they could not buy the site. Now the building has been moved and the land on which it stands has been donated.  
 Burlington county teachers have restored the interior so skillfully that it is almost exactly as it was when Miss Barton taught there.

## AS A FRENCHMAN SEES US

Americans Are Gamblers in Business and Careless in Thrift, Is Verdict of the Frenchman.

Half a dozen British writers having looked us over this summer, and recorded their impressions as Frenchmen, Louis Thomas, is now doing the same thing for the French capital's Weekly, the Ombre.  
 "American wastefulness is a stupidity, this thing to Frenchmen," says Thomas. "We are thrifty and even we must admit suspicious. Our experts, who co-operated with them in our enterprises found them absolutely wasteful, indifferent to costs and imprudent to the last degree."  
 "The reason is simple, says Thomas. "Americans are gamblers."  
 "They do not want to make a moderate profit a steady, regular, perhaps mediocre income, but, on the contrary, to make a great deal of money in a very short time, to 'get rich quick.'"  
 "They gamble at business—not at roulette or bacarat; but it is gambling all the same."  
 As for wastefulness:  
 "So many people here have made their money by chance, by good luck, by a dash of imagination, and not by the sweat of their brow, that they are naturally wasteful and spendthrift to an extent which we can hardly imagine in Europe."  
 "Everyone wastes, even the poor, not particularly the women, who, for the most part do not seem to have time to acquire the habits of economical housekeeping possessed by women of the old world."

Grain Sown From Airplane. Through an invention to sow grain by airplane, aircraft may be listed as agricultural implements. The new "flying grain sower," says the New York Sun, will plant a strip of 30 feet wide traveling at the rate of 30 miles an hour. The seeds are expelled by air pressure from a perforated metal tube with sufficient velocity to drive them deep into the ground. At the end of each wing a thin stream of water time or fertilizer is released to outline the planted area. The plane is constructed to make a landing on a plowed field without damage.

Under normal conditions the "flying sower" has a capacity of 600 acres in about six hours. The same area planted with an eight-foot drill traveling at the rate of three miles an hour would take a man twenty-two and a half days of ten hours. It is estimated that 1,000 acres could be covered in one day by the air-sower.

Taxes of the Nations. The tax burden in important countries was computed for the financial conference held at Brussels. Expressed in dollars at the rate of exchange current in the summer, the Nation's Business states, it is shown that per capita the United Kingdom pays the highest taxes of \$87.00, the United States is second, with \$50.00; France, third, with \$34.00; and Norway fourth, with \$28.50.

With the income per capita, the economists compared the present government revenue of the latter to the former—which comes nearest to showing the relative burdens of taxes today—is lowest in the United States at 8 per cent and highest in the United Kingdom at 27 per cent. The other countries come in between.

The Costics. Colonel Roosevelt told a war story at an Albany reception. "A doughboy," he said, "had just got back home from the war, and he was hanging in a cafe when a dear old lady in the next chair to his own leaned over across her plate and said: 'I, too, have a soldier son, young man and a lucky one at that. Would you believe it? My boy went through the war without a scratch.'"

"Go lady," said the doughboy, "with us the name of his insect powder, will be?"

Rope Symbol of Good Luck. A singular feature to be seen in Japan on New Year's day is a rope running from house to house, with symbolic decorations. It is believed to ward off evil spirits during the year.

## HOPE HAMPTON

Here the charming "movie" star, Hope Hampton, is seen posing as a fashion model. She dons one of her latest importations, of which she has contracted to purchase 104 during the year at a total cost of \$50,000. This is on account of the demands made upon her in the dressing of her productions. The gown is made of silver cloth, which is built to give a mermaid figure.

## HOW DO YOU SAY IT?

By C. N. Lurie

Common Errors in English and How to Avoid Them

"OFTEN" AS AN ADJECTIVE. IN AN advertisement published recently in a New York newspaper, the writer spoke of "the often elaborateness of the dress seen in some groups of men." The use of the word "often" in this manner is incorrect; the dictionaries mention it but they call such use "archaic," which means outworn, or antiquated. "Often" is an adverb, or modifier of a verb, and means "on frequent or numerous occasions; many a time; frequently" (Standard Dictionary). It should not be used as an adjective, or a modifier of a noun, as in the phrase quoted. For "often," as used there, substitute "frequent," the only adjective that may be used correctly in this sense.

In this connection it may be well to note that the word "often" is frequently mispronounced, generally as "off-ten," the correct pronunciation is not "off-ten," but "of-ten."

### LOCAL GRAPPLER MEETS CHAMPION OF FOUR STATES

Karhunsari, Claimant of Northwest Title, and Finlayson, to Wrestle

#### TWO BOXING BOUTS

Wrestling fans will have an opportunity to see the light heavyweight champion of North Dakota and South Dakota, Montana and Wyoming, action Saturday night. He is Henry Karhunsari, of Aberdeen, S. D., and he will meet Ellsworth Finlayson, Bismarck wrestler, in a bout at the I. O. O. F. hall tomorrow night at 8 p. m.

Karhunsari comes to the city with a reputation of being a very skillful and active wrestler. Finlayson's showing in his bout with Mike Collins here a short time ago and his record as the light-heavy champion of the Atlantic coast of the United States navy leads his friends here to believe that he will take the title away from Karhunsari when they meet. Both wrestlers have agreed to weight in at the ringside at 170 pounds.

North will referee the bout, which will be for two best falls in three.

Preceding the wrestling match there will be two boxing bouts.

Local devotees of boxing and wrestling hope to see the game take a strong foothold in Bismarck. It is interesting to note in the game there will be some of the best boxers and wrestlers in the Northwest brought to the city. Jimmy Mulloy, lightweight boxer, who is known in the fight centers of the Northwest as a fast and skillful man, many bring a St. Paul opponent to the city in the near future, and Mike Collins, who wrestles at 141 pounds, is trying to arrange a match with a wrestler his own weight.

The doors for the match tomorrow night will open at 8:30 o'clock, the match starting at 9 p. m. Reserved ringside seats are \$1.50 and general admission is \$1.25.

Jatindra Charin Goho is the handle of an Indian rattle and nut merchant who has just come to put Uncle Sam a visit. Goho exercises his neck by dangling a 100-pound weight on it.

### HORNSBY PEDDLES LIFE INSURANCE

**FACTS ABOUT CARD STARS**  
Baseball's highest valued chattel. Money won't buy him. Would be traded for high-class players. First right hand hitter to rule since since Honus Wagner. Will be 25 in April. Married. Has one child. Makes St. Louis his home. Height 5 feet 11 1/2 inches. Weight 185 pounds. Sells insurance during winter.

#### Batting King Grooms Business Schedule for the Future

**BY DEAN SNYDER.**  
Base hits and life insurance! Rogers Hornsby peddles both. The ring of his 370 galled bat draws the fans to the ball parks six months out of the year.  
The scratch of his pen adds to insurance policy holders the other six.  
Rogers isn't leading the insurance league. But he is getting his toes dug into a secure future.  
Diamond days don't go on forever, he knows. So he's grooming a sideline.

It isn't likely that the Card star will settle back into a manager's shoes when he's through with baseball.

**"Lone Wolf"**  
Rogers is of a quiet, retiring disposition. While on the road with the team he doesn't put around much with the gang. His teammates call him the "lone wolf."  
When he shows up on the ball lot he's all business. He's leading in the attack both on the field and at the bat.  
He plays the insurance game the same way. But when he's talking to a prospect his conversation perks up. St. Louis citizens consider it an honor to have their insurance papers signed by the same hand that signs

one of the fattest contracts in baseball.

**His Like Honus.**  
Rogers, like Honus Wagner, hits from the right side of the plate.

The left-hand swingers have grabbed off most of the gravy in the batting averages. There has always been keen rivalry between the righters and the lefties.

Before 1900 practically all the big hitters stood on the right side of the plate.

**Brawny and Fast.**  
Player's frequently shifted from the right-hand side of the platter to the left, believing that this style was their only chance to lead.

The last year that the great Honus

led the National Leaguers was 1911. Since then the swat leadership has been monopolized by left-hand hitters.

Rogers has broken their long run. The brilliant Cardinal is a brawny little fellow. He stands 5 feet 11 1/2 inches tall and weighs around 185. His dash in going down offsets the extra stride right-hand hitters have to take.

**Can't Be Bought.**  
Hornsby is still on the market. But Branch Rickey wants playing talent in return. The cash which McGraw has been lavishly offering doesn't mean anything.

High-class ball players are the only kind that would strengthen Rickey's ball club. All the money in the world wouldn't help keep the Cards in the fight for the 1921 pennant.

#### LINTON GIVES BAND CONCERT

Linton, Jan. 21.—The contributors to the fund for the maintenance of the band last season, were entertained by the Linton Concert band, in the Lodge Hall, last Friday evening. Nearly all the business places in the city were represented.

At the close of an hour's concert, rendered by the band, several of the guests present spoke for the good work of the organization.

A seven-reel picture was then shown and a light lunch wound up the evening's entertainment.

#### TOUR TO HOLY LAND

##### Americans Form First Party in Seven Years

New York, Jan. 21.—Four hundred Americans are signed up for the first Mediterranean tourist trip in seven years. They sail from New York Jan. 15 on the steamship Caronia.

They will be the first American touring party to visit the Holy Land since before the war.

New American Pullman cars will haul the party from Alexandria to Jerusalem.

The Holy Land has changed a lot since the British army, aided by the American Zionist medical unit, started a general clean-up.

Roads are being rebuilt and modern sanitation introduced.

Sacred spots such as the Garden of Gethsemane and David's Tomb have been preserved intact.

**Gulf Stream's Course.**  
The force and velocity of the Gulf stream vary, to some extent, but its course does not materially change until it has run hundreds of miles northward off the coast of the United States. Gradually it does then shift its direction more eastward, at the same time spreading like a fan and becoming shallower.

### BALLPLAYERS LIKE BISMARCK; WOULD RETURN

George Chicken Writes Letter; Hunts With Harper in Canada

George Chicken, who played baseball with the Bismarck club for a time last summer, would like to return to the city next summer. Alex Harper, third baseman and shortstop who made such a hit with the fans, also would like to play in Bismarck again. Chicken, in a letter to Harry Hoeman, says that he is spending a lot of time skating in Minneapolis this winter with Rube Schauer, pitcher on the Minneapolis baseball club. In addition to supplying information that he and Harper would like to come back to Bismarck, Chicken writes that Adams, who pitched for Valley City last summer, and several other classy ball players can be lined up for a team here.

Chicken enclosed a postcard showing him crouched in the snow in front of Alex Harper's cabin on his Saskatchewan ranch, with a big deer head on one side of his trusty rifle and a moose head on the other.

Word also has been received from Dolly Elder, captain of last year's team. Dolly wrote from Chicago, stating that he had been in Michigan for a couple of weeks.

**TO PLAY DULUTH**

"No-To-Bac" has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a cigarette, cigar, pipe, or for a chew, just place a harmless No-To-Bac tablet in your mouth instead, to help relieve that awful desire. Shortly the habit may be completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

## STATE SCHOOLS COST ANNUALLY \$12,716,416.65

Compilation of Reports for State  
Places Average Tax at  
6.34 Mills

### TRANSPORTATION COST

Amount for Taking Children to  
and From Schools Shown  
to Mount

A remarkable increase in the amount of money paid out by school districts for transportation of school pupils is shown in statistics compiled in the office of the state superintendent of public instruction. The amount increased from \$560,000 1919 to \$876,876.10 in 1920, the report shows, a total of 21,153 pupils being transported to and from school.

A growth in the number of consolidated schools, to and from which most pupils are transported, is shown. Twenty-eight were added in 1920, the total in the state being 457. There were 4,751 one-room school houses in the state.

The figures show that the total wages of school teachers amounted to \$6,235,154.79 in the fiscal year. Of this amount \$5,235,571.83 was paid to women teachers and \$1,000,582.96 to men teachers.

The average salary paid to teachers is shown to be \$90.00, the average for women teachers being \$86.05 and men teachers \$116.00. Kindergarten teachers are the best paid class of teachers in the common branches or below, the average monthly salary for them being \$125.16. The average monthly salaries of teachers in one-room school houses is \$81.60. Of this number 69 are college graduates, 267 are normal school graduates and 2,816 are high school graduates only.

North Dakota's investment in school property totals \$25,213,577.52, and the average rate of taxation for school purposes in the 2,035 common school and 125 special and independent school districts is 5.34 mills. The expenditures for school purposes in the fiscal year ending July 1, 1920, amounted to \$12,716,416.65.

## DRINKS ACID; LIFE SAVED; TONSILS GONE

Shields, N. D., Jan. 22.—Jack Culp won't ever need an operation to remove his tonsils.

Culp started to drink from a pitcher filled with sulphuric acid, which was being used in charging electric light batteries, thinking the pitcher contained water.

He swallowed a mouthful of the acid and physicians saved his life by promptly giving antidotes. Mr. DeMoull informed the victim that the acid had burned out his tonsils.

## IOWA SPEAKER IS OBTAINED FOR BANQUET

Fathers and Sons Banquet to Be  
Held at Masonic Temple  
February 10

### ROTARIANS 'ADOPT' BOYS

Bismarck's first Fathers' and Sons' banquet will be held on Thursday, February 10, at the Masonic temple.

The banquet will be under the auspices of the Rotary club, as a part of the work in the interest of boys which Rotarians everywhere have undertaken.

E. C. Wolcott, general secretary of the Y. M. C. A. of Sioux City, Iowa, has been obtained as the chief speaker of the evening. The Rotarian committee feels very fortunate in obtaining Mr. Wolcott, because of his long experience in boys' work. He formerly was secretary of boys' work for the Illinois Y. M. C. A.

Information from Blaine Curtis, state Y. M. C. A. secretary, is to the effect that Mr. Wolcott will spend a week in North Dakota promoting companionship of fathers and sons. He will speak at Devils Lake, Minot, Valley City, Fargo and Bismarck.

During his stay in Bismarck, Mr. Wolcott will deliver two addresses at the high school and will speak at the evening Fathers' and Sons' banquet. The Rotarian committee announces that the boys present will range between the ages of 11 and 16 years. Rotarians who have no sons of that age will "adopt" a boy for the evening, and others will be there. The accommodations will limit the number of people present to about 200 people.

## WALLACE WANTS ASSESSOR FOR ENTIRE COUNTY

Tax Commissioner Favors Creation of Office by Legislature

George E. Wallace, state tax commissioner, today reiterated his belief that the most important reform in taxation which the legislature can provide is the creation of the office of county assessor.

The county auditors of the state in session at Bismarck last summer went on record in favor of a county assessor to be selected under civil service rules, and for a long tenure in office.

In speaking upon this subject, Mr. Wallace said: "I attended the state convention of County Commissioners held at Grand Forks on Wednesday. It was the best meeting of county commissioners I ever attended. The sentiment seemed to be that the county assessor was needed, and that he should be removed from politics. Personally I am in favor of a county assessor law, and of removing that official entirely from politics by a civil service examination, and appointment to office. I believe that the cost will be less than the present method of assessment, and I am sure that the results will be so great that there will be no comparison between the old and the new methods. I am firmly convinced that we must either have more simple taxation laws, or have an expert in charge of the revenue and taxation laws in every county. With the county commissioners and the county auditors favorable to such a method, it would indicate that there is a general public demand for change. The income tax law must be amended, and there are some other administrative matters which the legislature will be called upon to change during the present session."

## FIRST GUARANTY ELECTS OFFICERS

At the annual meeting of the First Guaranty Bank, E. V. Lahr was elected to the office of vice-president and J. P. Wagner was made cashier to fill vacancy left by Mr. Lahr. Mr. F. A. Lahr was reelected to the office of president. The three officers will be active.

Mr. Wagner was formerly cashier of a bank at Hell, but for the past year has been acting as auditor of the Lahr banks in this section of the state.

The bank report as shown at the call of the state examiner, Dec. 29, shows it to be in excellent condition. The past year's growth has been very satisfactory, and with its beautiful new home this bank is due to become one of the leading financial institutions of the Slope country.

## COAL PROBLEM OF NORTHWEST IS REVIEWED

Judge McGee, Minnesota Commissioner, Issues Booklet on Subject

### FOR GOVT. REGULATION

A complete resume of the coal situation as it affected the northwest last summer and fall is contained in a printed report issued by Judge John F. McGee, Minnesota Fuel commissioner, received in this city today.

Judge McGee makes a strong indictment of the big eastern coal companies, many of whom are for the high prices for coal obtaining during the summer and fall, when the northwest was threatened with a coal shortage. Prices lately have dropped considerably at the docks at Duluth.

Judge McGee had the co-operation of the representatives of other states in the northwest. His report was printed at the expense of the state of Minnesota and Judge McGee acted as the spokesman, while other representatives planned and worked without publicity.

Local Men Co-operated.

In his report Judge McGee tells of the activities of Capt. J. P. Baker, 61 this city, who acted as the representative of the governor of North Dakota in negotiations at Washington, during which time the northwest representatives were demanding that they be guaranteed that a sufficient supply of coal would be laid down on the docks at Lake Superior sufficient to supply the northwest. They insisted that lake transportation be used, because it would cheapen the price of coal.

Judge McGee arraigns the National Coal association, which, he said, allotted \$400,000 a year for maintenance of its headquarters at Washington, and which, he said, had challenged the authority of the interstate commerce commission over transportation in the courts, attempting to tie its hands, while relief was so urgently demanded.

A schedule of contracts filed with the interstate commerce commission on July 6 "showed contracts with producing companies for 18,574,200 tons made earlier in the year, some of them as early as January, 1920, and which the representative of the dock companies repeatedly stated to the writer and others based on a contract price about \$4.50 per ton, the only talk I heard at Cleveland was in regard to high-priced coal, and that seemed to me if I could believe my ears that all the coal that was moving to the lake front for shipment to the northwest was high priced coal running from \$7.00 to \$10.00 or \$12.00 a ton," says Judge McGee.

For Regulation.

Judge McGee declared that the railroads had not carried the amount of coal to the northwest that had been agreed on, and said that speculators sought to make the most of the situation, when contracts were not fulfilled, by throwing in coal at remarkably high prices.

Judge McGee does not advocate either government ownership nor operation of the mines, but does advocate government regulation.

"What I suggest is the regulation thereof, just as the grain elevators and railroads are regulated, and I do not understand how an honest man can object to the exercise of that power. In the present temper of the people of this country, it is either regulation or it is something more drastic," he concluded.

## DECISION MAY AFFECT STATE TAXATION LAWS

State Statutes May Have to Be Changed Slightly by Ruling

The state tax department has under consideration the effect of a decision by the federal court of Connecticut holding that increased value in capital investment is not income and is not taxable.

If this decision is upheld by the United States Supreme Court, Lyman Baker, secretary of the state tax commission, states it will mean that the federal government will have to return millions of dollars already collected. He was not prepared to say, however, whether or not it would affect the state. It may make necessary a slight change in the law, he said.

In the particular case under consideration by the federal court a man had purchased bonds and then resold them several years later at a profit. This profit had been taxed by the federal officials as income. The court held that gain in value realized from the sale of property is not income.

If the supreme court upholds this decision it will be impossible for the federal government to tax this profit as there is constitutional provision which provides that a direct property tax can only be levied in proportion to the population. This rule does not hold with the state, however.

WEATHER REPORT.

## AUTHORS' STAR RISES, ACTORS' STAR FADES IN THE PHOTO-PLAY FIRMAMENT

## T. J. TULLY CAPITAL CITY PIONEER DEAD

Dies in Spokane at Age of 87  
Years—Came Here in 1879

T. J. Tully, aged 87 years, a pioneer resident of Bismarck, passed away at Spokane, Washington, Friday morning at 10 A. M. said a telegram received in the city by Grant Marsh. General disability due to old age is believed to be the cause of his death.

Mr. Tully came to Bismarck on April 17, 1879, and had seen the city grow from a struggling trading post of the prairies to a thriving city. Although he had never aspired to public office, he had always taken a strong interest in public affairs and took part in public discussions of community advancement.

Mr. Tully was a native of Ireland, having been born in 1834. He came to America in 1860 with his family, locating in New York, and later in Philadelphia, Pa. He served his country in the Civil war, and after the war he engaged in the tailoring business.

Coming to Bismarck in 1879 Mr. Tully engaged in this line of business. He had lived almost continuously in Bismarck since that time. In December, 1919, he went to Philadelphia to spend the winter with his son, Charles C. Tully. He went to Spokane, Washington, last Nov. 20 to spend the winter with his son, Joseph Tully.

A member of St. Mary's Pro-Cathedral Mr. Tully was known as a very religious man. He is survived by two sons and two daughters, Mrs. John Kennedy, of Balboa, Canal Zone, Panama; Mrs. Fred Dobler, of Seattle, Wash.; Joseph Tully, of Spokane, Wash., and Charles C. Tully, of Philadelphia.

The body will be brought to Bismarck for burial. The time of the funeral has not been determined.

## YOUR INCOME TAX When, How, What to Pay

U. S. Bureau of Internal Revenue.

The income tax, this year as last, may be paid in full at the time of filing the return, or in four equal installments due on or before March 15, June 15, September 15 and December 15.

Forms—1040A for incomes of \$5,000 or less and 1040 for incomes in excess of that amount—will be sent to taxpayers who last year filed a return.

Failure to receive a form, however, does not relieve a person of his obligation to file a return and pay the tax on time.

The penalty for failure to file a return within the time prescribed is a fine of not more than \$1,000, and an additional assessment of 25 per cent of the amount due.

"Willful refusal" to make a return and pay the tax on time is punishable by a fine of not more than \$10,000, or one year's imprisonment, or both, together with the cost of prosecution.

## Famous Novelists and Playwrights Flock to Los Angeles

N. E. A. Staff Special.

Los Angeles, Jan. 22.—The actors' star wanes.

The authors' star rises!

This is the situation in the movie industry reconstruction.

Producers are practically convinced that "the story's the thing." Their conviction rests upon the success of recent photoplays with powerful plots and strong casts without stars. For instance, "Limousine."

So stars' salaries are being slashed. Productions are being reduced in numbers.

But more attention is being paid to scenarios. Consequently better pay for scenario writers.

Author's Colony.

Already living in the Los Angeles moving picture colony are such famous authors as Elinor Glyn, Sir Gilbert Parker, Nina Wilcox Putnam, Somerset Maugham and Edward Knobloch.

Expected additions within a few weeks are Avery Hopwood, Joseph Conrad, Sir Henry Arthur Jones, Rilla Belman and Irving Cobb.

Meanwhile Sir James Barrie, Rudyard Kipling and Rex Beach continue providing movie material.

And Anita Loos, America's foremost scenario writer, threatens to eclipse the fame of Mary Pickford.

How the stars are fallen from the one-star production is shown by the cast of "Anastole," being completed at the Hollywood studio of Famous Players-Lasky.

In this one production are many who have been singly starred: Wallace Reid, Gloria Swanson, Wanda Hawley, Agnes Ayres, Elliott Dexter, Bebe Daniels, Theodore Kosloff, Monte Blue and Theodore Roberts.

"Big Five" Activities.

While many studios here are practically closed down, and many stars are "at liberty," here is what the big five are doing:

Charlie Chaplin: Starting work on the last three pictures he has contracted to make for First National. He expects to finish these and begin work on his first six-reel production for United Artists this year.

Douglas Fairbanks: Finishing "The Nut" and planning to do "The Virginian" before April, then to go to France for "The Three Musketeers."

MARY PICKFORD: Going to Europe with her husband to make "Little Lord Fauntleroy" in England and a Dutch photoplay on the Vuyder Zee.

BILL HART: Completing the last of a series of nine pictures, after which he plans to retire and write western novels.

ROSCOE ARBUCKLE: Making "Three Miles Out" and will continue on comedies.

FIRE ON STREET CARS.

Muskogee, Okla., Jan. 23.—Street cars operating over a line on which a negro was killed Thursday night were fired upon. Officers carrying rifles rode all suburban lines.

## MRS. J. BRADY DIES AT AGE OF SEVENTY-SEVEN

Was Pioneer Bismarck Woman—Engaged in Business Here in 1883

Mrs. Johanna Brady died this morning at her home at 807 Fourth street, after an illness extending over a year. The deceased was one of the pioneers of Bismarck, coming here a widow with her family of young children in the fall of 1883.

Opening a dressmaking shop, she managed her home and the bringing up of her five children, three of whom survive her, Mrs. James D. McDonald, whose home is on Second street, Mrs. Frank C. Parker, of Grand Forks, and Miss Mary Brady, who has made her home with her mother.

Johanna Higgins was born in county Kerry, Ireland, and came to America at thirteen years of age, making her home at Goodridge, Ontario, where she married Thomas Brady at the age of sixteen. There the family of five children were born. After the death of her husband, the widow brought her family to Bismarck.

One of the best known women in the early days of Bismarck, the deceased was known as a jovial, courageous, and keen business woman, as well as a most devoted mother and kind friend. Though always frail of body, she had a great soul and a temperament that enabled her to look on life in a sane way with the wisdom to make the best of things as they were.

Scores of friends in Bismarck and the county will regret the passing of Mrs. Brady and the deepest sympathy is felt for the bereaved daughters, who were all at the bedside of their mother at the hour when she quietly passed away, at the age of seventy-seven.

Requiem burial service will be held at St. Mary's church at nine o'clock on Monday and interment will be at St. Mary's cemetery by the side of two sons of the deceased who have gone before.

## ROCKEFELLER GIVES MILLION TO CHILDREN

New York, Jan. 22.—Herbert Hoover announced John D. Rockefeller, Jr., contributed \$1,000,000 to the relief of starving millions in China and Europe.

FARMERS TO GIVE CORN.

Chicago, Jan. 22.—The recent offer of the farmers of the midwest to contribute surplus corn for the relief of starving millions in China and Europe has been accepted by the Hoover relief committee and other similar organizations, according to a message to the New York office of the American Farm Bureau Federation.

RATE BOOSTED IN NEW LEIPZIG.

The state railroad commission has authorized Lewis Brothers, of New Leipzig to increase rates for electricity up to 25 cents per kilowatt, with a minimum charge of not more than \$2 per month, effective February 1. The town board of New Leipzig expressed itself as being agreeable to the increase.

CASE TO TEST STATES POWER TO ESTABLISH RATES.

Washington, Jan. 22.—A test case involving authority of the Interstate Commerce Commission to supervise rates within states as well as between states reached the supreme court from Wisconsin today. Counsel for the railroad commission filed an appeal from an injunction granted the C. & N. W. railroad which would restrain the commission from interfering with new tariffs filed for intrastate traffic. Advancement of argument to expedite a final decision will be asked.

## NO CONFERENCE ON DISARMAMENT UNTIL MARCH 4

Elihu Root Outlines Situation in Letter to Chairman Butler of House Committee

### HE ADVOCATES ACTION

Would Have Matter Taken Care of by Incoming Administration

Washington, Jan. 22.—The question of total or partial disarmament should not be discussed by United States with other administrations pending a change of administration March 4. Elihu Root, who helped form the international court of arbitration under the league of nations, declared today in a letter to Chairman Butler, of the house naval committee.

The precise method of procedure, Mr. Root said, ought to be determined after and not before Mr. Harding and his secretary of state have had an opportunity to inform themselves and to reach a conclusion as to the way that affords best prospects of success.

Mr. Root declared his strong belief that steps should be taken promptly after the new administration is established to bring about a general agreement for disarmament writing Chairman Butler Mr. Root says:

"I have your letter of Jan. 14, asking an opinion to aid your committee in considering an estimate for additional ships of war requiring for their completion the sum of \$107,177,000.

"I do not feel like hazarding an opinion as to what reply other governments might make to a suggestion from our government for the appointment of representatives to meet for the purpose of discussing the question of total or partial disarmament.

"I feel strongly that steps should be taken promptly after the new administration is established to bring about a general agreement on that question. It is plainly impracticable to accomplish this before the change."

"The subject is especially difficult because of the disturbed conditions of eastern Europe and it is difficult because too many nations have apprehension of danger against which they wish to guard. The new administration will soon learn what is the best way to deal with these difficulties."

"It may be that they cannot all be dealt with in the same way or by the same process."

## WHEAT GROWERS ORGANIZING IN WESTERN N. D.

Wilson Announces Schedule for Meetings on Missouri Slope

Schedule for the organization of the National Wheat Growers association in the western part of the state has been announced by J. W. Wilson, organizer, as follows:

Golden Valley, Jan. 25.

Zap, Jan. 26.

Beulah, Jan. 27.

## SERVICE MEN TO STAGE BIG COMEDY HIT

Lloyd Spetz Post to Stage Famous Play, "Are You a Mason?"

Lloyd Spetz Post No. 1 is planning to stage in the near future the famous American comedy success, "Are You a Mason?"

The production of the play will be supervised by Sanford Dodge, the well-known actor and dramatic coach. The play has been a popular one with professional companies all over the country and has always been a great hit. The cast for the present production is being selected by competitive try-outs and Coach Dodge expects a production that will compare favorably with the professional ones.

There is abundant dramatic talent in the post and the auxiliary and selection of the cast.

## CASE TO TEST STATES POWER TO ESTABLISH RATES

Washington, Jan. 22.—A test case involving authority of the Interstate Commerce Commission to supervise rates within states as well as between states reached the supreme court from Wisconsin today. Counsel for the railroad commission filed an appeal from an injunction granted the C. & N. W. railroad which would restrain the commission from interfering with new tariffs filed for intrastate traffic. Advancement of argument to expedite a final decision will be asked.

## BANKERS GIVE THEIR SIDE OF CONTROVERSY

In Statement Declare Public Deposit Law to be Resubmitted to People at Early Election

### NEW LAWS NECESSARY

A full discussion of the Bank of North Dakota and the conference between the bankers' committee and the Industrial Commission, which was held recently and which terminated in the rejection of a proposition regarding bond sales by the state, is contained in the forthcoming issue of the organ of the North Dakota Bankers association.

Among the features elaborated upon by the bankers' committee are:

- Industrial Commission held Bank of North Dakota is destined to be one of the biggest banks in the United States.
- Initiated law placed all public deposits back in bank will be resubmitted to people at an early election.
- Bankers hold that law regarding bank does not contain simplest safeguards contained in state and federal bank laws—limiting of amount in which any one customer might become indebted to it.
- Omission of safeguard general over country—that of prohibiting short-time or demand deposits in long-time or permanent investments.
- Bankers hold that shrinkage in Bank of North Dakota deposits was little more than normal, pointing to fact that no money was coming into bank and year-end bills being paid, and that initiated law was not responsible for shrinkage.
- A new depository law is necessary before bonds, warrants of counties, etc., can be sold. Industrial Commission agreed to new depository law.
- Industrial Commission said present administration intended to go no farther with present industrial program than three industries: Bank, Grand Forks elevator and Drake mill.
- Bill will be introduced in legislature legalizing proposed finance corporation of bankers to sell warrants.
- Talks of Future.

The exhaustive report of the bankers' committee gives its side of the conference with the Industrial Commission, and is signed by E. J. Weiser, Ed. Pierce, Geo. H. Hollister, J. J. Barley, O. S. Hanson and H. P. Beckwith.

The committee says that "while your committee regrets its inability to report more tangible results, it is free to say that the conference with the Industrial Commission must be productive of good. It was a departure from the usual formal, mutual-admiration character of conferences between state officials and constituents. Frank and open argument, suggestion and pertinent criticism, some of it perhaps more emphatic than diplomatic, was invited and delivered from both sides of the conference table."

Indicating the committee does not feel that co-operation with state officials to better the financial situation is at an end the committee says that it must let "further circumstances guide further action."

### Regarding Bank Laws.

The part of the bankers' reply regarding the laws governing the Bank of North Dakota, which may come before the legislature, follows:

"Prospective bond buyers were unanimous in insisting that the laws under which the Bank of North Dakota was organized—and now controlled by the Industrial Commission, were unwise, not conducive to sound banking—and unless materially amended would at all times be a menace to the financial system of the state, and would frequently bring about just such conditions as now exist. That no proper safeguards were thrown about trust funds. That under the law such funds could and would be, as they have now been, transferred, loaned, or invested in enterprises where they would not be available when required. All safeguards by previous laws thrown around sinking funds had been removed, and no adequate substitute provided. Many other objections had been urged but this is sufficient to show their general nature. The remedy seemed to be printed out by the intent of a large majority of the voters when they on Nov 2 last, took out of the hands of the Bank of North Dakota the administration of all funds except those of the state, the state institutions and the state industries."

### Tool Issue.

"In response, the industrial commission took issue squarely with these objections, argued that the Bank of North Dakota law was sound, its management and its operation safe and profitable, that it was destined to be one of the biggest banks in the United States, that the people had been deceived when they curtailed its power and operations at the last election, that the initiated law would be resubmitted to the people at an early election, when the verdict would no doubt be reversed, and that therefore no plan which countenanced a limitation or curtailing of the operation of the bank could be countenanced by the administration. Mr. Cathro asserted that the Bank of North Dakota could now pay every demand upon it, and be beyond criticism, but to do so would require withdrawals from other banks in such amounts as would cripple them."

### Weakest Points.

"It was pointed out that this was the result of one of the weakest points in the law. Had the law contained one of the simplest safeguards contained in the state and federal bank laws, namely: the limiting of the amount in which any one customer might become indebted to it, this condition could not have occurred. Also the omission of another simple provision which years of experience caused to be made a part of the banking laws of the nation, the prohibiting of the using of short-time or demand deposits in the making of long-time or permanent investments, and limiting the proportion of long-time deposits which

Had the law contained one of the simplest safeguards contained in the state and federal bank laws, namely: the limiting of the amount in which any one customer might become indebted to it, this condition could not have occurred. Also the omission of another simple provision which years of experience caused to be made a part of the banking laws of the nation, the prohibiting of the using of short-time or demand deposits in the making of long-time or permanent investments, and limiting the proportion of long-time deposits which

might be so used, that is planning the loans only with respect to the time which deposits may reasonably be expected to remain.

The commission called attention to the enormous shrinkage of deposits in the Bank of North Dakota during the past month, alleging that the same was due to the initiated law. The committee, without admitting error in the enactment of the initiated law, even if it were so responsible, argued that such was not the case. The law took effect on Dec. 2. No funds came to the counties since that date except the returns from their tax sales, and these brought in money only to the extent of about 25 per cent of the amount advertised. Nearly half the counties have continued to deposit with the Bank of North Dakota. The industrial commission has provided that no withdrawals could be made except for the most necessary purposes. Therefore the difference between deposits and withdrawals of public funds since Dec. 2 could not have been more than normal. A more likely cause of the shrinkage is that depositors began to realize the arbitrary power vested in the industrial commission, and reduced their balances now for fear they might not be permitted to later on. The industrial commission insisted that to put such

restrictions in the law, or to limit its control over deposits would impair the power of the bank to finance the proposed state industries, and therefore could not sanction its amendment."

## DAIRYMEN WHO BROKE RECORDS ARE TO SPEAK

Plans Drawn for Annual Convention to Be Held at Jamestown

The annual convention of the North Dakota State Dairymen's and Butter Makers' association will be held in Jamestown on Feb. 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1921.

While there will be speakers of national reputation from other states many of them will be North Dakotans.

"During the last year breeders of each of the three leading dairy breeds in North Dakota have succeeded in breaking state and in some instances world records in production of butter," said Mr. Osterhaus, secretary of the association.

The officers of the association are G. B. Caraway, of Fargo, president; J. P. Jacobson, of New Rockford, vice-president; J. J. Osterhaus, of Bismarck, secretary, and E. S. Person, of Minot, treasurer.

Prizes will be awarded in the boys and girls essay contest held by the association, prizes of \$25, \$15 and \$10 being awarded for first, second and third best essays, respectively on "The Future of the Dairy Cow in North Dakota."

## HAIL WARRANTS FOR 1920 ARE OUT

All of the 1920 hail warrants will have been written in the office of auditor of state by tonight, it was stated at the office. The last county to receive warrants is Adams; first on the alphabetical list. Payment will be made when taxes are collected.

## EQUITY FAILS TO FILE ITS REPORT

The Equity Cooperative Packing company of Fargo failed to file the annual report of its business in 1920 as required by the state cooperative law. It was found in an examination of the records at the office of the secretary of state today. The law provides the reports shall be filed on or before July 1 each year.

## Soviet Ambassador Sails for Home

New York, Jan. 22.—Nearly two years' effort by Ludwig C. A. K. Martens to gain recognition by the United States government as the ambassador of the Russian Soviet government ended today with his departure for Stockholm, Sweden, on board the steamship Stockholm. It was the final execution of the department of labor's order for his deportation as an undesirable alien.

Hundreds of personal friends of Martens and of his "ambassadorial" retinue of 42, crowded the docks to bid farewell. Although the department of labor offered the best accommodations the ship afforded, Martens declined saying he wished to buy a ticket and travel as any other citizen.

Declares Lydia E. Pinkham's Vegetable Compound to Be the Best Medicine for Girls and Women

Hamilton, Ohio.—"I had such awful pains in my back I could hardly stand on my feet and I was never without a headache. If I walked up town I thought I would drop and many a time I felt so bad I had to go to bed and I was not able to do much of my housework. I would have hemorrhages every two weeks and dragging down pains. I had had two of the best doctors in the city, but I kept getting worse and only weighed 125 pounds. I saw your advertisement and I took eight boxes of Lydia E. Pinkham's Vegetable Compound Tablets. Four bottles Lydia E. Pinkham's Blood Medicine and your Liver Pills and noticed an improvement right away. Now I weigh 155 pounds and feel fine. Everybody tells me how well I look and asks me what I took and I always say, 'Lydia E. Pinkham's Vegetable Compound, the best medicine in the world for any sickness to which girls and women are subject.' I will always have a good word for your medicine and you may use my name whenever you wish."

## THINKS STATE WILL WIN GRAIN GRADING CASE

Lemke Thinks Judge Amidon's Decision Will Be Upheld

That the decision of Judge Amidon of the federal district court will be upheld by the circuit court of appeals in the state grain grading case is the belief of William Lemke, attorney general, who returned yesterday afternoon from St. Louis, where the hearing was being held.

Seth Richardson of Fargo, argued the case, which is the one brought by the Emden Elevator company asking for an injunction to prevent the state grain grading department from enforcing the act. The request was denied by Judge Amidon.

"Attorneys for the appellants took the unusual position that the wheat," says Mr. Lemke, "from the time it was harvested became interstate commerce because it was going to be shipped out of the state."

Former Attorney General Simpson of Minneapolis, argued for the appellants.

## URGE BREWING OF BEER FOR MEDICINE

Milwaukee, Jan. 22.—A communication sent to Washington by Nelson H. White, federal prohibition inspector for Wisconsin, may be the cause for the reported plan of the internal revenue department to permit the manufacture of beer for medicinal purposes. It was said in medical circles today.

Scores of physicians have written that an epidemic of gastritis was caused by home-made beer which is not properly fermented, it was commented. The physicians urged that the breweries be permitted to make beer.

## Do You Want Propaganda or the News?

These are stirring times in North Dakota, the most important from a news standpoint than any since statehood.

Both sides of the great issues are being related daily in the columns of The Bismarck Daily Tribune, North Dakota's oldest newspaper.

What is the function of a newspaper anyway? It is to print news and not views in its news columns.

Criticisms belong in the editorial columns, not in news articles or in headlines.

The Tribune is trying to keep views and opinions out of its news columns. News should not be doctored any more than milk sold as 100 per cent pure should be watered.

President-elect Harding, a successful newspaper publisher, sets forth the following rules for the publication of his paper:

## WHAT A NEWSPAPER SHOULD DO AND BE

"Remember there are two sides to every question. Get both.

"Be truthful. Get the facts. Mistakes are inevitable, but strive for accuracy. I would rather have one story exactly right than a hundred half wrong. Be decent, be fair, be generous.

"Boost—don't knock. There's good in everybody. Bring out the good in everybody, and never, needlessly, hurt the feelings of anybody.

"In reporting a political gathering, give the facts, tell the story as it is, not as you would like to have it. Treat all parties alike. If there is any politics to be played we will play it in our editorial columns.

"Treat all religious matters reverently. If it can possibly be avoided never bring ignominy to an innocent man or child in telling of the misdeeds or misfortune of a relative.

"Don't wait to be asked, but do it without asking, and, above all, be clean and never let a dirty word or suggestive story get into type. I want this paper so conducted that it can go into any home without destroying the innocence of any child."

These rules should govern every reputable newspaper.

# F. R. MANN TELLS HOW TO CAPTURE THE BUSINESS

Cleveland, Ohio, Jan. 22.—Some novel methods of advertising were described by Fred P. Mann of Devil-Lake, N. D., in explaining to the Cleveland Garment Manufacturers' association how he enlarged his business in a town of 5,000 inhabitants to one approaching three quarters of a million dollars annually.

Every time a good soaking rain follows a long dry spell he writes letters of congratulations to all the farmers within a radius of forty five miles of Devil-Lake he said.

Every time he gets in a new line of baseball gloves and hats he sends letters to all the small boys for miles around telling them about it.

"I started in business with a \$100 stock of groceries bought on credit," Mr. Mann said. "I borrowed \$25 from my father with which to pay the freight."

Called Him "Dippy."

"A few days after I went into business, a newspaper friend of mine induced me to try a little live advertising. So we framed a little ad which ran in the middle of the first page in the weekly paper. The other merchants of the town also advertised but their ads were limited to an announcement of 'Our Spring Line Is In' which stood in type week after week until fall came around, when fall time was substituted for spring time."

"That first year we did a \$2,400 grocery business. Gradually we began adding other lines. In 1907 we built one of the finest stores in the northwest. It cost \$75,000 and we spent \$25,000 more for fixtures."

"It's too bad," everybody said. "Mann is a nice fellow, but he's gone dippy at last. That kind of a store will scare the farmers away."

Rest Room.

"But, the farmers are just as proud of that store as we are. We had a rest room for women—a thing unknown before in that part of the country—had a little booth where we served coffee free on Saturday afternoon and when we have a special occasion like a fall or spring opening, we have some music just to create a friendly feeling and show the folks we are glad to be able to entertain them."

"The weekly paper became a daily but it has only 2,000 circulation, so to make certain we could get the effects, we wanted, we bought our own type. When our advertisements have been printed in the paper we leave the type standing until it is taken again on a sheet which we mail to all the farmers."

Mann uses a distinctive label on all his shoe boxes, publishes a store magazine, mails personal letters to the women when he thinks he has something in stock they would be interested in, and during the war he published all the national news in pamphlet form, with only his store name in small letters by way of advertising and distributed them among the school children of surrounding counties.

When Mann was elected president of the North Dakota Retail Merchants' association in 1917, he made a survey to find out why a third of the business of the state was going to mail order houses. His survey, he said, showed that only 10 per cent of the merchants were live advertisers.

## PLEAD GUILTY TO EMBEZZLEMENT

Crosby, N. D., Jan. 22.—G. C. E. Goetze, former treasurer and W. E. Vadnais, former county auditor of Divide county, entered pleas of guilty before Judge John C. Lowe in the district court here Tuesday respectively to charges of embezzlement and falsification of tax sale records. Goetze was given an indeterminate sentence in the penitentiary of not less than one and not more than seven years and a fine double the amount of the defalcation to which he had admitted. Vadnais was sentenced to five years in the penitentiary but Judge Lowe acting on the recommendation of State's Attorney Olaf Braaten, suspended his sentence on condition that restitution is made.

Special Examination.

At the request of State's Attorney Braaten, deputies from the state examiner's office made a special examination of the offices of the county treasurer and county auditor of Divide county. The examination was completed just prior to the present term of the district court. The examination showed defalcations and shortages amounting to \$1,181, being the amount of penalties and interest collected on tax sale certificates owned by the county. The defalcations began in 1916 and continued for about three years. The district court being in session.

## DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole.

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet—colds of the chest (it often prevents pneumonia). It is always dependable.

## GOES TO CELL FOR UNBORN BABY'S SAKE

James and Gertrude McEvey, who paroled at prison gate for sake of their unborn child.

(N. E. A. Staff Special.)

Chicago, Jan. 21.—James McEvey in Joliet prison, hopes for a pardon that he may be home when the stork arrives.

He is in prison because his wife of 17, told him that he ought to be square with the world when he becomes a father.

He married her last May, after he had escaped from Joliet, where he had been sent for breaking parole on a previous sentence.

McEvey didn't let the girl know he was a convict until after their marriage. He obtained a good job and furnished a comfortable home.

Money does not mean everything," says McEvey. "I can't say just now whether I am losing. I'll know when I check up after a trial."

"To me it appears a strange thing that people should be concerned over what I sell my bread for."

"It's my bread, isn't it?"

"But, right now, I'm mad—clear through. Everybody's asking too many questions. The people have no gratitude."

"If I raise my price the people have only themselves to blame. Bah, I'm disgusted!"

## MYSTERY OF GHOST

Remains Unsolved After 40 Years' Investigation

Shanghai, China, Jan. 22.—Look lightly on the subject of ghosts, if you like.

But first consider this ghost story which after 40 years' investigation remains unsolved.

Sir Edmund Hornby, as judge of the supreme court at Shanghai, always called reporters in the day before the session of court to give out the docket.

On one such night he retired early and left a copy of the docket with his butler to be given to a reporter.

After the judge had gone to sleep a reporter knocked and walked into his room. The judge, about half awake, explained angrily about the butler having the docket and turned over to snooze.

But the reporter returned and insisted that the judge dictate the docket. Fearing argument would wake his wife in an adjoining room, the judge complied.

As he had finished and the reporter left, Lady Hornby awoke and the judge told her of the incident. Both noted it was 1:30 a. m.

Next day, on the bench, the judge noticed that the particular reporter was absent. He inquired and was told that the reporter had died of heart disease at 1:30 a. m. in a remote part of the city.

Even a reporter cannot be at two places at the same time. Those who

## F AREWELL, 5-CENT LOAF!

Philanthropic Baking Threatens to Punish Prying Public

(N. E. A. Staff Special.)

New York, Jan. 22.—Everybody in New York would like the answer to this question:

"How can Piccirillo sell a five-cent loaf of bread for 5 cents?"

Andrew Piccirillo will not tell. In deed, he's quite peevish because he's asked.

And he's about ready to punish his questioners.

How?

By raising the price of his bread. Nevertheless Piccirillo hints darkly at having a secret invention which enables him to manufacture bread more cheaply than other bakers.

He sells the 5-cent loaf at only one of his two stores.

"Because people in the neighborhood of one store are poorer than people in the neighborhood of the other store," he explains.

He has been selling 1,000 loaves at 5 cents every day.

Other bakers say this can be done only at a loss.

Special Examination.

At the request of State's Attorney Braaten, deputies from the state examiner's office made a special examination of the offices of the county treasurer and county auditor of Divide county. The examination was completed just prior to the present term of the district court. The examination showed defalcations and shortages amounting to \$1,181, being the amount of penalties and interest collected on tax sale certificates owned by the county. The defalcations began in 1916 and continued for about three years. The district court being in session.

## THIS MIGHT SAVE YOUR LIFE.

This is "snapshot" X-ray photograph that might save your life some day. It is accomplished by means of a new photographic plate, 25 times more rapid than anything previously used in X-ray work. The sample here is a snapshot of the innards of an alarm clock and inset is Dr. L. A. Levy of London, inventor of the new plate. This discovery may be the means of saving many lives by facilitating the photography of moving organs such as the heart and lungs, experts say.

# "Shameful Neglect" of Our Disabled Dough-Boys

## IS A CHILD'S LIFE WORTH \$10 TO YOU?

When Mr. Herbert Hoover wrote to The Literary Digest in October, telling of the desperate condition of three and a half million children in Europe, and of the threatened interruption of the work of his organization because its resources would be exhausted in January, he said that he had asked other American organizations to lift the further responsibility of this work from his shoulders, but that up to that time none of them had felt able to assume the gigantic task.

The Literary Digest was profoundly stirred by the call of this great emergency and decided to consecrate its entire energy to the task of arousing the American people to uphold Mr. Hoover's hands in this life saving work. We immediately published in our issue of October 30, an editorial appeal entitled "The Slaughter of the Innocents," and called for prompt subscriptions by our own readers and Americans everywhere to the Child-Feeding Fund urgently needed, starting the Fund ourselves with a large cash contribution. On the very first appearance of this appeal President-elect Harding gave a wonderful impetus to the Fund by his splendid telegram of endorsement and his contribution of \$2,500 to care for 250 starving children.

We published the appeal in more than three hundred leading newspapers throughout the United States and telegraphed to more than two thousand newspapers urging their editorial support, which was royally given. Immediately following this nationwide appeal, which The Digest has continued intensively and without interruption ever since, for three months, the heart, and mind, and proper pride of America responded to the call the members as well as the officers of other great benevolent organizations felt that this was also their opportunity, the difficulties which Mr. Hoover had previously experienced disappeared, and he found it possible to complete a consolidation of eight of the greatest relief organizations in the country for a combined campaign to collect the \$38,000,000 needed to feed the starving children of Europe and to provide medical supplies and work.

State and city organizations were quickly formed in every part of the Union, and the money began pouring in from the American people who are now thoroughly aroused. Nearly half of the total \$38,000,000 is now raised; but the other half is urgently needed within the next 80 days to be effective. Remember, \$10 saves the life of one child. Every American whose eye rests on these words should not let a single day pass without sending a contribution for this life-saving work. We are asking all our readers to co-operate in every possible way with the local organizations and to send their contributions to their State Treasurers instead of direct to The Literary Digest, because it is impossible to continue printing the long lists of contributors in the overcrowded columns of The Literary Digest.

Give generously and give promptly to this emergency relief to save the lives of Europe's starving children. The name and address of your State Treasurer is H. W. GEARY, Merchants National Bank, Fargo, N. D.

## BODIES REBUILT

Crippled Youngsters Started on to Success

Chicago, Jan. 22.—The most wonderful factory in the world is at Spaulding school.

It remodels and makes over deformed children.

When the recess bell rings you see 300 kiddies learning to forget their misfortunes.

Legless boys run races. Girls with braced limbs play basketball.

They swing on rings and bars. No school children in Chicago are happier.

Miss Jane Nell, the principal, makes it her particular business to keep the children happy.

"A happy spirit is half the battle won," she says.

Famous surgeons visit the school and straighten out warped bodies, adjust braces and casts, and model artificial limbs.

And the youngsters simply "eat up" their lessons.

Some of Spaulding's graduates are holding high-paying positions.

## BIBLE IN CONGRESS

BY WILSON GARDNER

Washington, D. C., Jan. 22.—The Bible is not as well known a book as it was some years ago. This was shown during a hearing before the House Military Affairs committee recently.

Somebody quoted from the Bible. "He who liveth by the sword shall die by the sword."

Representative Caldwell of New York expressed the opinion that this was not an accurate quotation.

"He who useth the sword shall die by the sword," was what Caldwell thought was the passage, so they sent for a Bible.

Caldwell went at it. He turned to the front and to the back and to the middle, then he went at the front, asking his neighbor, "Haven't this got an index?"

He handed it to a woman next him.

Not niggardliness but mismanagement is behind the fact that thousands of our disabled soldiers of the Great War "are still waiting, exploited, neglected, forgotten, for the draft of honor to be redeemed." The Public Health Service, according to Harold A. Little, of the New York Evening Post, is months behind in dealing with urgent appeals from disabled soldiers needing treatment, as is also the Bureau of War Risk Insurance in payments.

The Pittsburgh Chronicle-Telegraph quotes Col. Frederick W. Galbraith, Jr., National Commander of the American Legion, as saying that "10,000 disabled veterans are quartered in cellars, poor-houses, and insane asylums."

The leading article in THE LITERARY DIGEST this week, January 22, 1921, presents facts that will astonish the American public and which have been incorporated by the American Legion in a dispassionate memorial to the President, the President-elect, the Congress, and the people of the United States. The causes of the present regrettable conditions and a remedy for it are carefully shown.

## Taxes We Can Reduce

Over 150 Years Ago Benjamin Franklin Said

"Friends, the taxes are indeed very heavy and if those laid by the Government were the only ones we had to pay, we might more easily discharge them; but we have many others, and much more grievous to some of us. We are taxed twice as much by our idleness, three times as much by our pride, and four times as much by our folly; and from these taxes the commissioners cannot ease or deliver us, by allowing an abatement."

## SPRING FROCKS SHOW WAIST LINE LONGER THAN EVER

**MRS. STEELE ENTERTAINED.**  
Mrs. H. Steele was hostess to a party of young women at her home Wednesday afternoon, commencing Miss Helen Lucas. The guests hemmed dish towels for the linen chest of the honor guest and when the towels were finished they were draped into a model "bridal" gown, en train, with veil. The honor guest was permitted to try out the creation over the luncheon hour which was at five o'clock. The pretty course luncheon was served by the hostess, assisted by Mrs. A. W. Lucas and Mrs. P. E. Byrne, had heart shaped favors heralding the coming marriage of the honor guest, so conveniently close to St. Valentine's day.

A short musical program followed. Miss Margaret Smith and Miss Mary Atkinson were most pleasing in piano numbers. Helen Steele, young daughter of the hostess, delighted the guests in a costume solo dance, and Mrs. Steele sang for her guests two songs, "Little Mother of Mine" and "Sun Shine, Shimmer". Closing one of the most delightful of afternoons arranged for the popular young honor guest.

### MRS. THEODORE TAYLOR HOSTESS.

Mrs. Austin Logan and her daughter, Mrs. Theodore Taylor, entertained friends at the home of Mrs. Taylor on West Thayer on Thursday afternoon. Cards were the diversion with five tables in play. A course luncheon was served at the close of the afternoon. Miss Charlotte Logan and a high school friend assisted the hostesses in serving.

A unique feature of the affair was the fact that six ladies shared the high score in the play.

### VISITING PARENTS.

Miss Laura and Veronica McCaughey came up from Jamestown last night to spend the week-end with their parents, Representative and Mrs. McCaughey, at the Grand Pacific. On Sunday evening the daughters will return to the convent at Jamestown, where they are attending school. Their mother may accompany them on her return to her home in Oshtemo.

### REMAINS THROUGH RECESS.

Mrs. Aaron Levin, of Park River has remained over the recess of the legislature with her husband, who represents Walsh county in the house. The Levins are at the Van Horn.

**FOR REV. VERMILYA AND FAMILY.**  
An informal reception will be given Rev. and Mrs. C. E. Vermilya and family at the Methodist parsonage to honor the many friends of the Vermilyas, both inside the church and out, on an opportunity to give them greetings.

It is very evident that we are going to have every chance this spring to observe how attractive lace and silk can be when made up together.

Here are two dance frocks that were sketched from the new—Greenwich Village Follies. The first is of apricot taffeta brought into a frill of lace at the foot to give it a new version of the harem effect.

In the corsage an all-over pattern lace is laid over the taffeta, and a scalloped girdle of the same lace and taffeta is adjusted in such a way as

before their departure for California. All are cordially invited to attend.

In the second model a corsage of dark blue velvet tops a skirt of lace flouncing and the long waist is emphasized by a narrow belt of the velvet which leads a trail of lace.

The third frock is also of lace, this time combined with net. A diagonal mesh net top and lace with the simplest of thread patterns is the material.

The long waist is emphasized by a girdle of roses with rich dark leaves.

church is planning a novel event for Tuesday evening next January 25th, in the lower auditorium of the church.

China will be visited. From four gaily decorated booths the following menu will be served in cafeteria style: Baked beans, meat loaf, rolls and butter, cakes, coffee, waffles, sandwiches, etc.

features are promised which include a "joy ride," fortune telling, etc. Serving will begin at 6:30 and a cordial invitation is extended to the general public to come and enjoy an unusually interesting evening.

### With the Movies.

**At the Eltinge**  
Georges Carpentier "the apostle of clean sports," as one noted New York sporting writer has called him, is said to be the most learned man who ever donned fighting togs. This French whirlwind, undisputed heavyweight champion of Europe, whose exploits in the ring are, if anything, excelled by his daring deeds in the World War, for which he was twice decorated, will appear in "The Wonder Man," a Robertson-Cole super-special, at the Eltinge theatre, opening Monday.

There is no doubt but that Carpentier owes his success as much to his keen mentality and vivid imagination, as to his physical prowess and mastery of the art of fistfighting.

"Every little thing I do is full of meaning," said the illustrious Georges. "I convince myself that if I neglect to do this and that I shall fail. I have been fighting since I was little more than a child; I have met strikingly different opponents and in each encounter, I have forced myself to adapt my style of attack and defence to the tactics of my opponent. And so I have become a vastly better man with each succeeding encounter."

Such an attitude of mind can be likened to the dramatic instinct of an actor. The really great actor never does the same piece of "business" in the same way. He rises to the occasion, meets the temper of his audience, brings himself en rapport with them; in other words, he works on the psychology of the moment, and creates the desired effect.

Carpentier carries this attitude of mind with him into his dramatic work for the screen, and those who see him in "The Wonder Man" will recognize the same qua non of a great actor as well as a great fighter.

## A NEW PROBLEM.

The new republic of Poland is going through an experience that sharply parallels that of the United States in the days of Washington, Hamilton, and Jefferson. She is framing her national constitution, and having just as much difficulty in perfecting it as the American colonies did.

The Polish constitution, however, has many new features unknown in the time of the American founders. Woman suffrage and the initiative and referendum are among these, while drastic measures covering child welfare and child labor legislation are being advocated.

The present grave situation among Polish children has alarmed the entire country and joined all political factions in demanding laws safeguarding the young generation. According to the reports of American Red Cross medical inspectors, there are 2,000,000 children in Poland today needing medical attention. Twenty per cent of the total child population of the country is crippled, defective or tubercular from malnutrition.

At any rate, Harding isn't going to have his inauguration mistaken for an Ohio village street fair.

## OAKS FROM ACORNS GROW.

Far cry it is from the little group of young men who met in a room in the London dry goods store of George Hitchcock in 1844 to the army of 868,892 members comprising the Y. M. C. A. in America alone, at this time. Yet that shows just how the Young Men's Christian Association has grown in the 77 years since its inception.

The real founder of the Y. M. C. A. was a man named George Williams. Williams was a clerk in Hitchcock's dry goods store. And there he roomed with 80 other clerks. He didn't like the habits of some, and invited a few to meet with him in his room to try to change conditions. Out of this meeting grew the association. Hitchcock, the owner of the store, became the first president and Williams served as treasurer for 41 years.

In America there are 2,194 Young Men's Christian Associations, with 5,173 paid officers and 85,106 directors and volunteer committees. Out of the total membership of about 869,000, there are nearly 200,000 boys, quite an army in itself. Its property in the United States is worth \$128,000,000.

They carried Chinese coal to Newcastle during the war and now Iceland is crying for a shipment of ice.

## THE "STAY-IN-SCHOOL" DRIVE.

School children, multi-thousands of them, soon will be graduated from the eighth grade. These and children from the lower grades, all finishing the first half of the school year now face the temptation to "get a job." That means quitting school. It means putting behind the child that worthy ambition to acquire a good education.

In many cities "stay-in-school" drives are well under way. These are intended to discourage children from running into industry. The New York child labor committee, the state employment bureau, and the department of education will co-operate in bringing the facts before the older pupils in elementary school and in high school.

The campaign to keep children in school is of particular importance just now because of the condition of the labor market today and the increasing unemployment. This will make it more difficult for the child to get a job.

That is something the parents should consider well before even consenting to discuss the matter of the child's quitting school. And it should not be thought of, even though a job is obtainable, if it is possible to keep the child at his books.

One more term of school will mean more to any child, tomorrow, than all the money he can earn today.

Stay in school!

Senator McCormick bought some clothes in Paris, but his rural constituents in Illinois will never see them on him.

## PART OWNERS.

The Standard Oil company of New Jersey offers stock to its employees at unusually attractive terms. Frankly, S. O. makes it plain that the offer is not a matter of charity, nor that S. O.

thus seeks to even up inadequate salaries. Standard Oil wants employee-stockholders because it hopes for a closer interest in employees' minds when they are part owners.

This is, according to the new light seen by captains of industry, good business. It tends toward a "new realization of the common aims and interdependence of capital and labor." Those are words Standard Oil itself uses in making the offer.

Once there was a time when the employer wanted nothing less than that his employees should have a voice in the business. That was along about the time when the public could be damned. Modern industry damns not the public, the consumer; nor does it ignore the workers, the producers.

There are those radical labor leaders who belittle this effort to make employees part owners in industry. They insist that it is but a crumb, intended to head off public ownership, and being extremists, they are not satisfied with anything but the entire loaf. However, there are many

persons, including a large majority of labor folks, who, believing that a two-year-old calf cannot be born in a minute, think it advisable to make a success of part-ownership before attempting a still larger load.

If they make our navy too small, what will our cabinet officers do when they want to travel?

We are informed that Berlin is "getting back to normal." Thought the war was intended to prevent that.

Isn't the proposed law to ensure the purity of liquor for invalids likely to increase rather than decrease epidemics?

## THRIFT AND PINCHPENNY.

This is Thrift Week. It appropriately includes this the birthday of the great philosopher Ben Franklin.

A good many folk think Thrift is a kinsman of Pinchpenny. They are wrong. Thrift has none of the Pinchpenny blood in his veins.

Thrift uses his time, his strength, his mind intelligently, and makes his money serve his needs and minister to his pleasure. He labors hard at things worth doing, but wastes no effort on things not worth doing. He has time for play, for observation, for study. His hand opens quickly when his head tells him it is time to spend or his heart counsels giving. Thrift has learned to make the dollars he has earned work for him.

Pinchpenny sweats for his money, and all its life-long he is its slave. He fears to enjoy himself because he fears to let go of his purse. He does not dare to put out his money, being haunted by the thought that it may not come back to him. When Opportunity knocks at his door he sends word he is not at home, and keeps on counting coppers when he might send them forth to bring back coins of gold. Pinchpenny starves his mind, his body and his soul, for his hours are filled with anxiety and depressing forebodings.

Thrift is an admirable fellow whom we should all imitate. He knows what money is for, and he used it to make things go. He keeps the shops open and the factories running. He will not be swindled, but he is not to foolish as to go without what he wants and can afford to buy. This is Thrift's week not Pinchpenny's. Benjamin Franklin taught Thrift but never Pinchpenny. —New York Herald.

## ANOTHER LEAGUE POST-MORTEM.

The league of individuals which is working in Europe to salvage the League of Nations from the scrap heap has a confession to make and a notion to suggest. Its confession is that Article X must be torn from the covenant and consigned to oblivion. Its suggestion is that the people of all the countries holding membership in the League of Nations shall elect a representative assembly, to be a part of the superstate machinery which doesn't now work.

There is no harm perhaps in holding these post-mortems on the league and covenant. But what is the use? Nobody can breathe the breath of life into the poor dead thing.

The people of the United States as we have said more than once, are not averse to a voluntary co-operation by suitable association to settle international questions that are justiciable and otherwise to make for the preservation of peace. On the contrary, they are willing to take up at any time that rational question of practical treatment by sober judgment. But the League of Nations, never! —New York Herald.

## TROUBLE "BREWING"

## ADVENTURES OF THE TWINS

By Oliver Roberts Barton.

The Twins Have Lunch  
"Oh!" cried the twins in astonishment when they heard a great live lobster in a kitchen apron calling them in to lunch.

lamb. But there! The shrimp salad and the clam chowder and codfish balls are all ready. Do hurry now and wash your faces and hands. It was a most remarkable speech,

The undersea palace was built of mother-of-pearl and ornamented with all the lovely things of the sea.

The wicked Bobadil Jim had just brought them to his big palace and with the ocean all around them! Why, there was nothing but water everywhere!

"It's very dark today," went on the lobster. "A large cuttlefish was here calling and the sea's been murky ever since. He spits licorice something dreadful."

The lobster went around and turned on the phosphorescent lamps, and suddenly the children realized what a wonderful place they were in—for the undersea palace of the Bobadil Jim was built of the finest mother-of-pearl and ornamented with all the lovely things of the sea, corals and pearls and moonstones. Really in their amazement the little travelers completely forgot about their errand to the South Pole to rescue the toys from the Snatcher Snatch.

"But that would be awful!" declared Napey shuddering. "Not at all!" the lobster assured her. I should soon grow another just as easily as you grow a new eye.

## BILLIONS TO WALLOP DEPRESSION.

BY ALBERT APPLE

A Thirty-Billion-Dollar-Club to wallow in Depression!

That's the invested capital of the trade associations which have organized the National Prosperity Bureau to revive business.

The bureau will start team work among business-men for a return to prosperity.

"Prosperity celebrations" will be held in every community.

Decided improvement is taking place in shoe, textile and automobile industries, hardest hit by depression. Factories are reopening after being closed weeks or months. Operations start small, but the reopening is so general over the country that manufacturers believe it marks the beginning of general revival.

Gary's Hint  
"The country is on the eve of normal times," says B. H. Gary, head of U. S. Steel Corporation. He thinks that business within six months will be out of the woods entirely, and that general prices soon will be low enough to start big buying by the public.

The Steel Corporation continues running 90 per cent capacity. That's full time. It is rushing unfilled orders, getting desks cleared for a steel boom, according to the Analyst, which says that the corporation "does not look for a long period of depression but rather for a picking-up in business during the forepart of 1921."

Prices Deflating Fast  
Suit of clothes that cost \$21 wholesale Jan. 1, 1913, rose to \$47.50 April 1, 1920, now sells for \$24.00. In clothing, furs and furniture, where price slashing is deepest, merchants' stocks, bought at top prices, are being liquidated rapidly.

Coal market continues weak. Bituminous prices at the mines are down near production cost. Anthracite market continues going to pieces. Wholesale commodity prices fell 4 per cent in December and now average only 64 per cent above 1913 prices.

Cotton Crop Cut  
Reduction of 50 per cent in 1921 cotton crop is a certainty, says J. S. Wannamaker of the American Cotton

Association, after canvassing the 800 cotton-producing counties.

SURPLUS OF LABOR  
NOT SERIOUS YET

Widespread Industrial Depression Has Not Caused General Unemployment So Far.

Telegraph reports on the unemployment situation from official sources in 45 states, embracing more than 95 per cent of the population of the country, to the national industrial conference board in New York indicate that, although there is a widespread industrial depression falling at a time of the year when in most sections seasonal agricultural employment is at the lowest ebb, no serious or general unemployment has as yet developed. Reports from most states indicate that unemployment is slowly increasing, but not to an extent that constitutes a labor surplus.

"To understand this apparently contradictory situation," it was said at the office of the conference board, "it is necessary to recall that the industries of our country are just emerging from a period of intensive operation that may without exaggeration be called a period of super-production."

"The labor, therefore, that has been released, has for the most part drifted back to the less attractive employments from which it was drawn to the high-wage, intensively operating industries, and is not always 'unemployed,' even when so reported. In some districts the back-drift has not as yet been sufficient to make up the loss due to the wartime migration to industrial centers."

## FROM PULPIT TO CAFE

Pastor Declined Salary and Opened Cafeteria in Chicago.

Patrons of the Greenwood cafeteria, Chicago, have been wondering how the proprietor could serve sweetbreads and chickens, candied sweet potatoes and coffee with real cream for 40 cents and make the place go. The explanation was discovered when it became known that the new proprietor is the Rev. Emil Burk, who said it is possible to be a sincere minister and a good business man at the same time.

The Rev. Mr. Burk has refused to accept a salary from his congregation. He is seeking to prove that he can live independently of the church and give his services free to the flock.

"I believe in giving the people a fair deal," said the minister. "My prices are before-the-war prices, and I find that I can make them still lower and still derive a profit from the business. The Lord has wonderfully blessed this enterprise. If He sends more customers, I can make prices still lower."

## POSED AS MAN 19 YEARS

Girl Refused to Promise to Adopt Feminine Attire.

That she has never worn feminine attire, powdered her nose or rouged her lips since she was fifteen years old, was the startling statement made in court by Eleanor Howard, thirty-four years old, of New York city, arrested on a charge of masquerading in male attire.

When arrested Miss Howard steadfastly refused to promise to adopt feminine attire. She told the court that it was much easier for her to make her way in the world as a man.

## Goldman Has Had Enough of Russia.

"For God's sake take me back to America," exclaimed Emma Goldman, deported from the United States aboard the "soviet ark," when she met Washington D. Vanderbilt in Moscow. Miss Goldman is intensely unhappy and is "fed up" on soviet Russia, declares Mr. Vanderbilt.

## Coin Catching Dog Swallowed \$1.05.

When he swallowed a half dollar that had been thrown into the air for him to catch, a clever Alsatian dog of Cleveland, O., was taken to a hospital and his stomach stirred open. Two quarters and a nickel in addition to the half dollar were found by the surgeons.

## Boy Stole Payroll to Reach Dying Dad.

The desire to see his father, said to be dying in Spokane, Wash., is believed to have led Elliot Mincer, fifteen-year-old office boy, to disappear from the Baldwin Locomotive works, in Philadelphia, with pay envelopes containing \$4,300.

## Mexico to Pay for Death of Briton.

Great Britain has agreed to a settlement of the claim against Mexico growing out of the murder of William S. Benton, a British subject. Mexico is to pay \$10,000 cash to Mrs. Benton and a pension of \$2,500 a day as long as she remains unmarried.

## Offered Airplane Ride to Buyers.

A land office business in shoe sales was done by Dan Allison of Fargo, N. D., when he offered a free airplane ride with every \$50 purchase of merchandise. Allison's only regret was that he did not have more than one plane.

## Fined for Keeping Car Window Open.

A fine of \$35 was imposed on Peter Bruno of Wilmington, Del., who kept a window in a Pennsylvania railroad car open at the expense of other passengers and against the wishes of the conductor.

## Little Dog Stands Guard.

A little white terrier stood guard over the body of Alva Nicholson, aged sixty-six, who died of apoplexy in a cornfield near Elkhart, Ind., until searchers found them.

Vermont—Edna L. Beard.

## PROVED HELL TO HIS WIFE

Husband Set Bed on Fire, Following Family Wrangle.

A wordy dispute about religion resulted in a tragedy in a Chicago flat occupied by Mr. and Mrs. Frank Peterson. The wife held that there was no such thing as eternal damnation and everlasting burning in the bottomless pit. Her husband, however, believed that hell existed. His wife, tired of the argument, told him to forget the quarrel and go to bed.

Mrs. Peterson went to bed, but soon after she was asleep her husband apparently decided to give her a practical demonstration of his theory. He is alleged to have poured gasoline over her and applied a match.

Her screams aroused neighbors who saved her, although she was seriously burned. Her husband was arrested.

## WIFE TOO EXPENSIVE

Indiana Man Kept Wax Dummy for a Mate.

Information from neighbors led the police to investigate the home of Joseph Hudycke of Hammond, Ind. The police found that Hudycke had furnished his apartment with expensive furniture, rugs and hangings, and, seated in a hand-carved chair, they saw a dummy of a woman clad in silk garments. He talked to his dummy incessantly.

Hudycke is said to have declared it was cheaper to have a wax dummy than a wife. He was adjudged insane.

## ADOPTED FRENCH WOMAN

American Captain, However, Met With Quick Opposition From His Wife.

Telling immigration officials at Ellis Island that Miss Marie Schneider, pretty young French woman, was his adopted daughter, Capt. Robert Charles Gill, former medical officer in the United States army, requested that she be permitted to enter the country. Mrs. Gill, however, visited the officials and opposed the girl's entrance on the ground that she exerted "a strange and evil influence" upon her husband.

70,552—Yanks Gassed During War.

More than 31 per cent of all American soldiers admitted to hospitals overseas during the World War were gassed, according to a statement made public by the chemical warfare service. Excluding sailors and marines, the total number of American soldiers gassed was 70,552.

## The AMERICAN LEGION

ALONG THE LINE OF MARCH WITH THE NATIONAL SERVICE MEN

(Copy for This Department Supplied by the American Legion News Service.)

OHIO STATE'S 1920 ELEVEN IN ACTION.

Left to Right—Slyker (E), Spiers (T), Trott (G), Nemecsek (C), Weiche (G), Huffman (T) and captain, Taylor (E). Backfield—Workman, quarterback, has just passed the ball to Deig, with Stinchcomb and Cott forming interference.

When the Ohio State university football team, champions of the Western conference, hit the line, it had much of the Chateau-Thierry and Argonne punch with it, for ten of the eleven regulars composing the first team are war veterans and members of the American Legion. Moreover, the team, which defeated Illinois university for the conference title, was coached by a Legionnaire.

Legionnaires on the team say that the only reason why the team is not all Legion is because Harry Workman, sophomore quarterback, was too young to enter the service. Seventeen members of the first squad are Legionnaires.

Ohio State won from Chicago, Michigan, Wisconsin, Purdue, Oberlin and Ohio Wesleyan and scored 55 points in conference games against 20 for its opponents. American Legion members carried the ball over the goal lines for 14 touchdowns out of a total of 20 made by the team during the 1920 season and also scored five of its touchdowns out of seven made against conference teams.

## OBJECTIVES OF THE LEGION

National Commander Galbraith Outlines What Is Planned to Be Accomplished During the Year.

The objectives of the American Legion for the year 1921 were told by P. W. Galbraith, Jr., national commander, in a recent speech in Cincinnati, at a dinner attended by Legionnaires and business men.

Mr. Galbraith cited the disabled man's problems as the Legion's paramount concern and termed the finding of a satisfactory solution as "one job that is going to be done."

"Woe unto the man," he added, "or the bureau or bureau chief who will fully stands in the way of paying the honorable obligation the government owes these men. Whoever he is he will have to get out."

He warned against the activities of the I. W. W. and kindred organizations and outlined the position of the Legion as follows:

"The time has come when a line must be drawn between loyal and disloyal Americans. We do not claim to have a monopoly on patriotism but because of our service our loyalty is a little deeper to our country and is a little more intense. We intend to crush this thing. If it ever raises its head, that we already have fought and licked."

Mr. Galbraith also spoke of the desire of the Legion to unite with the veterans' associations of the allies, in order to promote international unity.

"People accuse us of being over-enthusiastic," he said. "They declare that we believe ourselves to be the only patriots. God knows we are not. If we were it would be a sorry day for the nation. We know we have a long road with a associates and we ask them to help us because without their good will and assistance we can accomplish nothing."

STAR MINOR FLOCK REMAINS INTACT

Majors Bid for Trio of Oriole Diamond Luminaries in Vain

The Baltimore Oriole club—star flock of the minors—is still intact. Manager Jack Dunn has no price for his players who topped the international league pennant and the "Big World Series" title in 1920.

The trio of stars who helped most to put the Orioles on the pedestal of glory are wanted by the majors. But they can't buy 'em.

The three Oriole luminaries wanted are: Jack Bentley, pitcher and home-run slugging first baseman.

Merwin Jacobson, centerfielder and leader of the league in hitting.

Jack Ogden, pitcher and reliable pinch hitter.

But Dunn won't sell 'em. He has turned down scores of offers. Baltimore fans want to keep their stars at home. The big league club managers might as well talk to a stone idol as to Dunn.

**Chief Prize.** Bentley—the fellow with the "Don't las Fairbanks smile," the great pitching arm and the "Babe Ruth" eye for clugging, is the prize which the angling majors want most.

Dunn has developed his fellow from a shiftless pitcher, a cast-off from the Washington club, into a prima donna.

Bentley pitched a two-hit game for the Senators on his first trip to the mound. But he failed to shine after that. Washington paid his carfare around the country for two years and got little in return.

When he slipped into Dunn's palm the Oriole pilot saw possibilities written all over the big piano-frame of the castoff. But he didn't get started until after he picked off a lieutenant's job overseas.

He won some games. Dunn praised him. Bentley liked it and worked harder. His hitting ability earned him a place at first base when he wasn't on the mound. He pounded the ball so hard he finished second to Jacobson, the league leader in 1920.

**All-Sluggers.** International League pitchers all shake when Bentley swings his bat. His drives go almost as far as Babe Ruth's. He has a long reach and can hit a ball most anywhere.

His pitching is just as classy as his hitting. He's got speed. He's as steady as a radiator and just as full of steam.

Just now Bentley is living on his farm near Sandy Spring, Md. Jacobson and Ogden, the others wanted by the majors, are just as valuable as Bentley, but not so spectacular.

Their hitting ability would strengthen any ball club.

**Stick Together.** Baltimore is with Dunn to the finish as regards keeping his luminaries.

In years past they have seen their stars float away from them. All they got in return was the echo of their fame.

Babe Ruth, the mighty, and Ernie Shore are among those they've given up to the big stars.

The players themselves are satisfied to stick to the Orioles.

So it seems to be a bargain—that they'll continue to be a happy family and win another pennant for Baltimore.

SUPREME COURT

**From Grant County.** Edmund Dubs, an infant, by Rudolf Dubs, Guardian, ad litem, plaintiff and respondent, vs. Northern Pacific Railway Company, defendant and appellant.

**Syllabus:** In an action to recover damages for personal injuries where the trial court denied a motion for new trial and entered judgment on a special verdict from which judgment and the order denying the motion the plaintiff appealed, and where the plaintiff subsequently made a second motion for a new trial based upon the grounds formerly assigned and as an additional ground, the loss without plaintiff's fault of the stenographic notes of the court reporter, in response to which motion the trial court vacated the judgment and order previously entered and granted the new trial on the additional ground assigned, it is held:

(1) Where after motion for a new trial is denied, judgment is entered and a subsequent motion for a new trial is made, the ruling thereon cannot be based upon any ground assigned in the previous motion. (The case of Davis vs. Jacobson and Dineen, 13 N. D. 430, is not applicable.)

(2) The grounds for a motion for a new trial, stated in Section 7550, C. L. 1913, and the grounds upon which a new trial may be granted by the court upon its own motion as stated in Section 7505, C. L. 1913, are exclusive. Appeal from the district court of Grant County, J. M. Hanley, J.

**Reversed.** Opinion of the Court by Birdsell, J. Grace and Bronson, JJ. concur in result.

**Young, Conmy & Young, Fargo, for appellant.** Jacobson & Murray, Mott, for respondents.

**From Mercer County.** Mercer County, respondent, vs. Christian Sailer, appellant.

**Syllabus:** In this case the board of county commissioners of Mercer county made an order establishing a highway. The highway as laid out deviated from the section line, and ran across lands owned by the appellant, Sailer. Sailer took an appeal to the District court from the order of the county commissioners. In his notice of appeal he asserted: (1) That the highway should have been laid out along the section line, and that it was unnecessary to deviate therefrom; and (2) That in laying out the highway he had not according to the order of the county commissioners, he (appellant) will sustain damages in the sum of \$2,000.00, while the county commissioners allowed only \$150.00 for such damages. No claim was made in the notice of appeal or otherwise in the district court that the proceedings before the county commissioners were irregular or invalid for jurisdictional or procedural reasons.

It is held: 1. That appellant cannot be heard to say on this appeal that the order made by the county commissioners was invalid on account of irregularities in the proceedings before the county commissioners.

2. That upon the record presented on this appeal the jury appears to have passed upon the questions raised by appellant in his notice of appeal and to have determined such questions against the appellant.

Appeal from the District Court of Mercer County, Lemble, J. Christian Sailer appeals from a judgment relating to the establishment of a highway.

**Affirmed.** Opinion of the court by Christianson, J. Grace, J. Dinsman, Thorstein Hyland, of Mandan, J. N. McCarter, and W. L. Smith, both of Bismarck, for appellant. John Moses, of Hazen, and Chas. L. Crum, of Mandan, for respondent.

**Church Built From One Tree.** With the exception of the floor, every piece of timber used in the construction of a church recently completed at Santa Rosa, Cal., was cut from one tree—a giant redwood, 13 feet in diameter. HIGH QUINTET WINS VICTORY AT DICKINSON

Score Is 24 to 19 in a Game Hard-Fought All the Way Through

VALLEY CITY IS COMING

Another scalp dangled from the belt of the Bismarck high school basketball team today—a victory over Dickinson by a 24 to 19 score last night at Dickinson.

The game was exciting all the way through, and was much closer than the game between Dickinson and Bismarck here sometime ago. Dickinson has a reputation of being almost unbeatable on her home floor.

Bismarck made the first basket and then a foul shot. Dickinson came back with a foul shot and a basket, evening up the score. The score was tied again, 6 to 6, in the first half but Bismarck shot ahead at the close, the half ending 10 to 8.

Dickinson started the second half by making the score a tie. Then Bismarck made four points, making it 14 to 10. Dickinson pulled up a couple of points, making it 14 to 12. But toward the finish Bismarck pulled ahead, the final score being 24 to 19.

**Floor Slippery.** A feature about the game was that Bismarck either was tied or led at every stage. Dickinson, with long shots down the floor, tied the score, or came near evening it, and then Bismarck, with short passes, and fine team work would score a couple of points. The game was hard-fought and rather rough. The floor was very slippery. At one time there were five players fallen on the floor.

The line-up of the game follows: B. H. S. Klund ..... D. H. S. Taylor ..... Veigel ..... Brodie ..... Suckerman ..... A. Rabi

Couch Aseltine was in charge of the party, which included substitutes Burke and Scroggins and about 10 enthusiastic rooters who matched the big crowd of Dickinson enthusiasts in shouting encouragement.

Bismarck has a tough opponent here next Friday night in Valley City. The team has been going good this season.

**VALLEY CITY LOSES** Valley City, Bismarck's opponent here next week, was defeated 15 to 13, by Jamestown High school at Jamestown. The game was extremely fast, reports from Jamestown today said.

**MANDAN VICTOR** Mandan High school defeated Casselton, 12 to 8, in a fast basketball game at Casselton last night.

The Dunns Have Done a Lot for Sportdom

JIMMY DUNN

JIM DUNN

JACK DUNN

JACK DUNNE

**BY DEAN SNYDER**

The Dunns have done a lot of things. And they're still up and doing. Every major sport has a Dunn of some kind in it that's making headlines.

There may be nothing in a name but look at these four men who bear Dunn monikers:

Jim Dunn, owner of the World Champion Cleveland Indians.

Jack Dunn, manager of the International League champions.

Jimmy Dunn, boxing manager, who brought out Champion Johnny Kilbane and who has a near-champion in Carl Tremaine.

Jack Dunne, quarterback of the 1920 Michigan eleven.

They're an all-star flock of Dunns. Nothing but winners suit 'em. They carry around strategy, brain cells and big ideas. They've brought home the bacon.

**One Misses "Spot"** Dunne, the Michigan quarterback, is the only member of the lot who has broken into the championship spotlight. But he fought like a Trojan to give Heavy-Up Yost a winner.

Jim Dunn, landlord of the Cleveland Indian chateaux, makes his home in Chicago. He's a contractor by trade and a magnate because he's a sportsman.

**Jack Stands Pat** He doesn't want all the money that a winning ball club draws through the turnstiles. Jim has made Tris Speaker, his hired man, a stockholder in the club.

Jack Dunne, skipper of the champion Baltimore Orioles, has a flock of stars that are worth a fortune. But they can't be bought. Baltimore says "keep 'em, Jack." So Jack stands pat.

**Jimmy's Gym** Jimmy Dunn, fight manager, hasn't a peer in bringing out budding boxers and few equals.

He keeps a gym in Cleveland. It's full of ring corners. The waiting list for admission to his blitz school is longer than the membership list.

**Taught-Killbuck** Jimmy taught Johnny Kilbane his stuff. Kilbane has cut loose to swim for himself now but every move he makes in the ring has the stamp of Jimmy Dunn on it.

Carl Tremaine, bantam star, is now near the top. If he picks off the 118-pound title that'll be another triumph for the house of Dunn.

**Winning Name** There they are—the Dunns. It's a good Irish name and a winner.

Jim Dunn is a good bet to win another American League rag.

Jack Dunn can count his chickens in for Baltimore unless he splits up his star flock.

Jimmy Dunn has a bantam standing on the front porch of a championship, the cage game.

ing to break 'em while my eyes can see 'em."

**Outshoots Westerners** Ivins uses a special make gun in his business.

He won the Grand American Handicap at Cleveland last August.

This was the first time an easterner had won the big classic in a generation. He won from 19 yards.

The first four shooters all shot at this distance. The 19-yard pivot proved the good link.

Only one other of the ten high men was from the east. Westerners ruled as they usually do. Most of the good shooting eyes seem to hail from the west.

Ivins broke 99 out of a possible hundred and won.

He was competing with all the crack shots which included the Olympic Games quartet—Frank Troeh, Mark Airie, Forest McNeil and Frank Wright.

**Plans Comeback** It is history that the same man never wins the Grand American twice. Ivins never have to take a handicap. They never have done a comeback.

Ivins might fool the book this year, but past records of champions are all against him.

WRESTLER HERE FOR HARD TILT WITH FINLAYSON

Karnhunsari, Finnish Wrestler, Meets Local Man on the Mat

TWO GOOD BOXING BOUTS

Henry Karnhunsari, Finnish wrestler, who grapples with Elsworth Finlayson, local mat artist, at Odd Fellows hall tonight, was mighty pleased when he heard the ring was located in the center of the room, with no window close.

Karnhunsari, when he arrived in the city, exhibited some bruises he received in a match at Aberdeen, S. D., a few nights ago. He was wrestling with Bob Evans, of Sioux Falls, S. D. Karnhunsari crowded Evans to one side of the ring and both clinched. Before anyone could prevent they had crashed through a window, and landed 10 feet below. Evans was pretty badly cut and bruised, and Karnhunsari suffered some bruises.

The entertainment tonight starts at 8 P. M. Doors will be open at 8:30. Both Finlayson and Karnhunsari will weigh in at about 170 pounds. Preceding the wrestling match there will be two boxing bouts.

Karnhunsari came here from Jamestown, where he wrestled with Jack Sampson, of Chicago, who weighs 190 pounds. Sampson was out to throw Karnhunsari twice in one hour, but he failed to do it.

**EIGHT KILLED IN SEIN FINN RIOTS** Dublin, Jan. 21.—Eight men, seven of whom were constables, were shot and killed in engagements with Sein Finners yesterday. Six of the constables met death when their motor car ran into an ambuscade, while another was found slain near the barracks of his squad yesterday morning. The civilians slain were shot by several men who entered his home.

Announcement has been made that in the future all motor cars carrying constables and therefore likely to be attacked will carry members of the Sein Fin as hostages. This plan has been in operation near Cork where martial law is in force and has, it is stated, acted as a preventative of attacks on parties of constables.

Recourse to the hostage system here where martial law has not been declared caused general surprise.

**Gltine** ALWAYS GOOD

THE flavor's fine and you have in "Gltine" a drink that really satisfies. A glass or two with meals, between meals or with that "late lunch" is ideal. Pleases the eye, has snap and sparkle, and it's pure that's sure. Made in both light and dark brew.
